GRA/ORR/CMO Joint Plenary Session
 Learning to Live with 80 Hours: Clinical Quality and Safety, Education, and Resident Experience

This session will allow GME educators and administrators, residents, and chief medical officers to review and discuss the impact and ramifications of the ACGME Duty Hour Standards put into place in July 2003.

At the end of the session, participants will:

- Appreciate the impact on education, resident well-being, and clinical service delivery created by the introduction of recently defined resident duty hours
- Understand many of the yet unanswered questions and consequences of duty hours upon educational process and outcome as well as the clinical quality and safety of care within clinical teaching sites

Saturday, October 28

Afternoon

- Have the opportunity to share the views of educators, residents and CMOs on a topic of mutual concern and interest, and to inaugurate a possible forum for future discussion among these closely linked groups around graduate medical education
