IT'S HOW MEDICINE

SHOULD BE

- 1970's
- 1980's
- 1990's
- 2000's

This talk is about what we need to do to get to

2010

(and the answer is “leadership”)

Competencies of a leader

- Leadership
 - Creating an environment for organizational success
- Management
 - Creating an environment for individual success
- Administration
 - Creating and executing processes of success

What differentiates competent leaders from great leaders?

Understanding accountability

What is Accountability?

- Accountability versus responsibility
- Accountability versus the opposites:
 - Victimization behaviors
 - Silo behaviors

- Who are the leaders we need most to impact?
- Components of the Rush program
- Outcomes
