Notes

The 2004 average percents are calculated from the percents of all schools and are not adjusted for the number of faculty per school.

* The data for these schools are based on the figures reported to the AAMC Faculty Roster as of December 31, 2004.

Some percents in this table are less than 0.5% and therefore display as 0% when rounded. In these cases, the actual percents are used in calculating the 2004 Average.

NA indicates that the information is not available.
