Notes

The 2006 average percents are calculated from the percents of all schools and are not adjusted for the number of faculty per school.

* The data for these schools are based on the figures reported to the AAMC Faculty Roster as of December 31, 2006.

NA indicates that the information was not available.

Some percents in this table are less than 0.5% and therefore display as 0% when rounded. In these cases, the actual percents are used in calculating the 2006 Average.
