Faculty Development and Leadership Programs

Last updated: September 2006

Medical School Based Career and Leadership Development Programs

Medical schools increasingly view professional development programs as a way to increase faculty vitality and to nurture faculty skills, knowledge, and growth in an academic setting. Medical school based professional development offices for these programs offer career and leadership programs, which vary in type and range from new faculty orientation programs for junior faculty to leadership programs for Chairs.

This catalog presents a listing of career and leadership development programs that were provided to us from over thirty different schools to assist other medical schools in developing effective programs for a variety of faculty. Faculty and staff of medical schools that are interested in developing similar programs for their academic leaders may wish to consult with these institutions. If you have programs that you would like to include or need to update information in this catalog, please contact Jennifer Leadley (jleadley@aamc.org).

The following medical school based programs are cited in this catalog:

- [**Career Development Programs**](#)
- [**Executive Education/Leadership Programs**](#)
- [**Faculty Orientation Programs**](#)
- [**Mentoring Programs**](#)
- [**Teaching Skills/Educational Scholarship Programs**](#)

The AAMC has not assessed or endorsed any of these programs.

Additional information is available on the [Faculty Development & Leadership \(FD&L\)](#) homepage and through [MedED Portal](#). MedED Portal provides information on development programs and facilitates the peer review of educational resources, including tutorials and faculty development materials.

CAREER DEVELOPMENT PROGRAMS

<p>Indiana University School of Medicine</p>	<p>Internal Change Agent Program (ICAP)</p>	<p>The goal of ICAP is to help participants master the relationship skills that underlie all change work. These skills form the basis for effective culture change, whether it is in interpersonal interactions, work with groups, whole departments or organization-wide efforts. The program has been designed to help participants with challenging situations or important issues they are facing. The sessions offer tools and opportunities for practice in a personal learning laboratory. Topics include change agency, difficult conversations and negotiation, observational skills, appreciative inquiry, and polarity management.</p>	<p>Faculty at any level who have an interest in developing a greater capacity to effectively facilitate issues of change--to help participants be more effective in 'making a difference' in their current work groups.</p>	<p>Stephen P. Bogdewic, Ph.D. Executive Associate Dean for Faculty Affairs & Professional Development Indiana University SOM 1120 South Drive Fesler Hall 302 Indianapolis, IN 46202-5114 317-278-5461 bogdewic@iupui.edu</p>
<p>Indiana University School of Medicine</p>	<p>Leadership in Academic Medicine Program (LAMP)</p>	<p>LAMP curriculum is designed to provide new faculty members with the necessary tools and understandings for career success while simultaneously encouraging them to help build a learning environment within the medical school community. LAMP consists of seven half-day sessions that address such topics as preparing the dossier, negotiation and conflict management, career planning, writing a scientific paper, oral presentation skills, and mentoring.</p>	<p>Faculty who are in the first or second year of their appointment.</p>	<p>Stephen P. Bogdewic, Ph.D. Executive Associate Dean for Faculty Affairs & Professional Development Indiana University SOM 1120 South Drive Fesler Hall 302 Indianapolis, IN 46202-5114 317-278-5461 bogdewic@iupui.edu</p>

<p>Johns Hopkins University School of Medicine</p>	<p>Office of Faculty Development</p>	<p>The Office of Faculty Development was created to support the professional development needs of the junior, mid-career, and senior faculty in the JHU School of Medicine. The office will provide a faculty development curriculum and web-based resources for development. The office will also support department directors in providing departmental mentoring, leadership development, and succession planning programs. Exit Interviews and surveys will be conducted to determine the factors that cause faculty to leave the School of Medicine, and the office will recommend and implement strategies to improve the recruitment, orientation, and retention of junior faculty. The office will also oversee sexual harassment and hostile work environment awareness-building and training programs, and will work with departments to achieve faculty salary equity by promoting adherence to equity guidelines.</p> <p>http://www.hopkinsmedicine.org/som/faculty/index.html</p>	<p>Junior, mid-career and senior faculty and leaders within the JHU School of Medicine</p>	<p>Lisa Heiser, M.A. Assistant Dean for Faculty Development and Equity Johns Hopkins University School of Medicine Broadway Research Building, Suite 809 733 N. Baylor College of Medicine	Educational Scholar Fellowship Program (ESFP)	<p>ESFP is a two-year program which meets monthly. The primary aim of the ESFP is to enhance the educational mission of the College(s) by improving the knowledge, skills, and attitudes of individual faculty. Specifically, the fellowship is designed to increase fellows' knowledge of key educational principles and theories, skills in lecturing, facilitating, designing, and evaluating, interest in and ability to serve as an educational leader, and self-reflection and readiness to benefit from constructive feedback from learners and peers.</p> <p>http://www.bcm.edu/fac-ed/ESFP/index_esfp.htm</p>	Full-time faculty; fellows when space is available	<p>Nancy S. Searle, EdD Program Director, Faculty Development & Ambulatory Education Office of Curriculum One Baylor Plaza, M301 Houston, Texas 77030-3498 713-798-7760 Fax: 713-798-8522 nsearle@bcm.edu</p>
Baylor College of Medicine	Masters of Education in Teaching	<p>The Master of Education in Teaching with an emphasis in the Health Sciences is designed to meet the needs of the medical educator who is seeking to increase his or her instructional effectiveness. The 36 hour curriculum is normally completed in two years, but students may take up to 5 years to complete the coursework. Courses are taught in the Texas Medical Center or on-line via the Internet. Course content will emphasize applications in the health venue settings.</p> <p>http://www.bcm.edu/fac-ed/master%20of%20education.htm</p>	Physicians, Basic Scientists, Fellows, and Staff involved in medical education.	<p>Nancy S. <p>Florida State University College of Medicine</p>	<p>Program of Faculty Development for Community Preceptors and Community Clerkship Faculty</p>	<p>This program is comprised initially of 6 hours of required training in basic teaching skills and participants must complete this before taking a student. Thereafter, preceptors and clerkship faculty must complete 4 hours of faculty development per year to maintain their 'clinical faculty' status. Two of those 4 hours must be acquired in the form of a 2-hour workshop and the additional 2 hours can be taken in the form of independent study via modules on CD or on web modules located on the faculty development web page. This faculty development program also includes on-going training in medical informatics including EBM skills.</p> <p>http://www.med.fsu.edu/education/FacultyDevelopment/</p>	<p>Community preceptors who teach year 1 and 2 students and community clerkship faculty who teach year 3 and 4 students.</p>	<p>Dennis Baker, Ph.D., Assistant Dean for Faculty Development Florida State University College of Medicine Office of Medical Education 1115 West Call Street Tallahassee, Florida 32306-4300 850-644-2564 Fax: 850-645-2919 dennis.baker@med.fsu.edu</p>
<p>Florida State University College of Medicine</p>	<p>Program of Faculty Development for On-Campus Faculty</p>	<p>This program is comprised of workshops on a variety of educational skills including instructional design, making interactive presentations, small group teaching, evaluation skills, and medical informatics. In addition to workshops, individual consultations are provided in the form of observations and feedback. This program is augmented by a faculty development web page that contains numerous resources arranged in the categories of planning, teaching, and evaluation.</p> <p>http://www.med.fsu.edu/education/FacultyDevelopment/</p>	<p>Clinical faculty, biomedical faculty, and humanities faculty.</p>	<p>Dennis Baker, Ph.D., Assistant Dean for Faculty Development Florida State University College of Medicine Office of Medical Education 1115 West Call Street Tallahassee, Florida 32306-4300 850-644-2564 Fax: 850-645-2919 dennis.baker@med.fsu.edu</p>

University of Washington	University of Washington Teaching Scholars Program	The mission of the Teaching Scholars Program is to promote academic excellence through the development of a vibrant community of leaders in education who can innovate, enliven, and enrich the environment for teaching and learning at the University of Washington. To this end, the program provides opportunities for participants to experiment with new teaching methods and formats, explore writings pertinent to education, leadership, and personal growth, and reflect on professional goals and aspirations in an intellectually challenging yet safe learning environment. Additionally, the program has increased its emphasis on coaching the scholars as leaders and role models for a burgeoning number of University of Washington clinician educators. http://www.dme.washington.edu/scholars.html	Professional Schools and foreign scholars who are studying at the UW are eligible to apply to the program. We annually recruit an inter-professional group of scholars from the schools of medicine, dentistry, nursing, social work, and pharmacy.
