Notes

For 1975–76 to present, the applicant and matriculant data are derived from AAMC Data Warehouse (DW): Applicant Matriculant File, updated as of 7/28/2014.
 Starting with 2000–01, the First-Year Enrollment, Total Enrollment, and Graduate Data are as published in the AAMC Data Book and derived from the Student Records System (SRS).
 For 2013–14 graduates, the data are derived from the AAMC Data Warehouse (DW): STUDENT_IND, updated as of 8/18/2014.
 Starting with 1992–93, the Total Enrollment and Graduates data are from the DW: Student section and SRS; Total Enrollment is reported as of October 31 of the academic year.
 Differences in Total Enrollment between years may not be statistically significant. Data starting in 1992–93 are biased slightly toward undercounting, as some cases (less than 1%) were necessarily excluded due to insufficient enrollment status information.

- @ 1965–66 First-Year Enrollment count of women is taken from the *Journal of Medical Education*, February 1973, p.188.
- † 1975–76 Totals include less than one percent for whom gender information was not available.
- ‡ 1980–81 Total Enrollment count includes 55 students for whom gender information was not available.
- * First-Year Enrollment figures include new entrants and those repeating the initial year.
- ** 1998–99 First-Year Enrollment counts are taken from the *Journal of Medical Education*, September 1999, p.891.
- ^ 1999–00 First-Year Enrollment Total is derived from LCME Part II, 1997–98, 1998–99, and 1999–00. Gender information is not available.
