The AAMC Group on Student Affairs is pleased to introduce our speakers today:

**Clinical Accommodations:**

Upholding Standards While Creating Equal Access

Neera R. Jain, MS, CRC  
*UCSF, Auckland Disability Law Centre*

Lisa M. Meeks, PhD  
*UCSF School of Medicine*

Jan Serrantino, EdD  
*University of California, Irvine*

Elisa Laird-Metke, JD (Moderator)  
*University of California, San Francisco*

Image description: the logo of AAMC is depicted, a snake wrapped around a staff with the words American Association of Medical Colleges: Tomorrow's Doctors, Tomorrow's Cures. Learn Serve Lead

Slide 2:

Please use the Q&A panel located on the right hand side of your screen to submit your questions. Send to All Panelists.

Depicts the Q&A panel with a red arrow pointing to the box that says “ask all panelists”

Slide 3:

The Coalition wishes to thank the AAMC and for their generous support in developing this webinar series.

Slide 4:

**Roadmap**

- Interactive Process
- Considerations
- Potential Accommodations
- Complex case studies
- Guiding Principles
- Questions

Slide 5:

The Interactive Process

The initial square says “Qualified SWD (Student with disability) requests accommodation in clinical setting”. Radiating out from this box are four boxes that say:

- DS office consults with faculty and outside experts
- Would requested accommodation alter Technical Standards, Learning Outcomes, or Policies?
- Will patient safety be jeopardized?
- Effective alternate accommodation?

Slide 6:

Points of Consideration

- When making clinical accommodations

Slide 7:
Webinar #4 – Upholding Standards While Creating Equal Access

**Considerations**
- Don’t make assumptions
- Know your programs
- Students don’t know what they don’t know
- Take a pragmatic approach
- Communicate early and often

**Slide 8: Considerations**
- Gather information from student:
  - Previous accommodations
  - Anticipated barriers
  - Treatment location, frequency
  - History and prognosis
- Help students plan in advance
- Be creative (around episodic flares)
- Support students

**Slide 9: Considerations**
- Review technical standards & learning outcomes
- Understand program policies
  - Attendance
  - Time to degree
  - Leave of absence
- Not otherwise qualified

**Slide 10:**
Potential Accommodations
- In the clinical environment

**Slide 11: Potential Accommodations**
- **Scheduling**
  - Location of clerkships
  - Order of clerkships
- **Leave**
  - Overnight call
  - Release from clinic to attend appointments
  - Modification to attendance policy
- **Modified approach**
  - SIM lab practice
- **Assistive Technology**
  - Screen readers
  - Smart pens
- **Communication**
  - Cell phones, text pagers
  - CART, interpreters
  - Amplification devices
  - Early notification of patient presentations
Slide 12:
Case Study 1
Student with a physical disability uses a wheelchair and has reduced arm strength.
Request:
Assistant to perform certain tasks during clinical tasks and patient exams.

Slide 13:
Case Study 1: Considerations
- Understand the scope of the student’s request
- Consult others (faculty, colleagues, legal)
- SOM - An undifferentiated degree program
  - Technical standards
    - Learning Outcomes
      - DS Research & Creative Thinking
      - Determination
  - Fundamental alteration?
- Consider patient safety

Slide 14:
Case Study 1: Outcome
*McCauley v. The University of Kansas School of Medicine, Case No. 13-3299 (10th Cir. 2014).*
- The student was denied and dismissed.
- The school has the right to set its own curriculum
- Substantial changes not required.
- Success at another medical school?

Slide 15:
Case Study 2 - Student with chronic health condition
- Flare of symptoms can affect:
  - Joint mobility and endurance
  - Fine motor functioning
- Attendance
  - Weekly physical therapy appointments
- Concerns: transportation and distance to clinical sites
- Unsure what accommodations are needed

Slide 16:
Case Study 2: Considerations
Physical:
- How stable is the student’s condition?
- What are the triggers for flares
- What does a flare “look like”
  - What kind of treatment is needed? Duration?
  - Predictable changes?
  - Use of a mobility device?

Academic:
- Each rotation: learning outcomes
- Policies for:
  - attendance
leaves of absence
rescheduling clerkships
- What other possible concerns?

Slide 17:
**Case Study 2: Outcome**
Proactive approach:
- Strategic placement and order of clerkships
- Use of a mobility device on the wards
- Possible alternate exam using SIM lab after flare
- Stool in surgery, brief breaks when needed.
- Release from overnight call to maintain sleep hygiene
- Release from clinic once per week to attend PT

Slide 18:
**Case Study 3**
- Stable with compliant medication regimen
- Strong treatment and support team
- Requests:
  - No overnight call
  - Weekly release for appointments
  - Exclude ER/Psych sites (previous inpatient)
  - Student with long-term psychological disability

Slide 19:
**Case Study 3: Considerations**
- Technical standards & learning outcomes
- Attendance policy
- Frequency & location of treatment team
- Purpose of overnight calls
- Medical leave policy
- Options for psychiatry and ER rotations

Slide 20:
**Case Study 3: Outcomes**
- No overnight calls
- Release from clinic 1x/wk for treatment
- Clerkship location

Slide 21:
**Guiding Principles**
- Do not assume
- Be proactive
- Use a pragmatic approach
- Know your policies and guiding documents
- DS at the center of decision making
- Consult with colleagues & tech experts
- Legal counsel is your best friend
