COMPREHENSIVE STATE-SPECIFIC REQUIREMENTS FOR INFORMATION FROM PROVIDERS

Reproduced in this table below is provider-specific information on price transparency laws from the Report Card on State Price Transparency Laws, published by the Catalyst for Payment Reform and the Health Care Incentives Improvement Institute on March 26, 2014.

The report can be found at http://www.hci3.org/sites/default/files/files/Report_PriceTransLaws_2014.pdf.

Several states do not require information from providers: AK, AL, GA, HI, ID, KS, MI, MS*, MT, OK, and WY.

*Exception: MS requires information from providers, but state does not legislate specifics of what information is made available to consumers.
