ASSOCIATION OF AMERICAN MEDICAL COLLEGES

Dr. BAYARD HOLMES, SECRETARY  
104 E. 40th St.

Chicago, October 30, 1900

My dear Doctor:

I enclose you a little advertisement of the Bulletin of the American Academy of Medicine which costs three dollars a year and contains the publications of the Association of American Medical Colleges, of the State Examining Boards and many educational articles of the greatest interest. It is beautifully printed and exquisitely edited by Dr. Charles McIntire of Easton, Pa. It is the journal in which the educational thought of the United States is crystallized. I wish that you would consider it a duty as well as a privilege to support this journal with your subscription and I wish that you would recommend it to the members of your faculty who are interested in this great movement in medical education. Please send Dr. McIntire your subscription and mention the fact that I have written you.

Hoping that this begging letter will be taken in the best part,

I am very respectfully,

(signed) Bayard Holmes, M.D.
