TWENTY-FIRST

ANNUAL ANNOUNCEMENT

OF THE

MIAMI MEDICAL COLLEGE

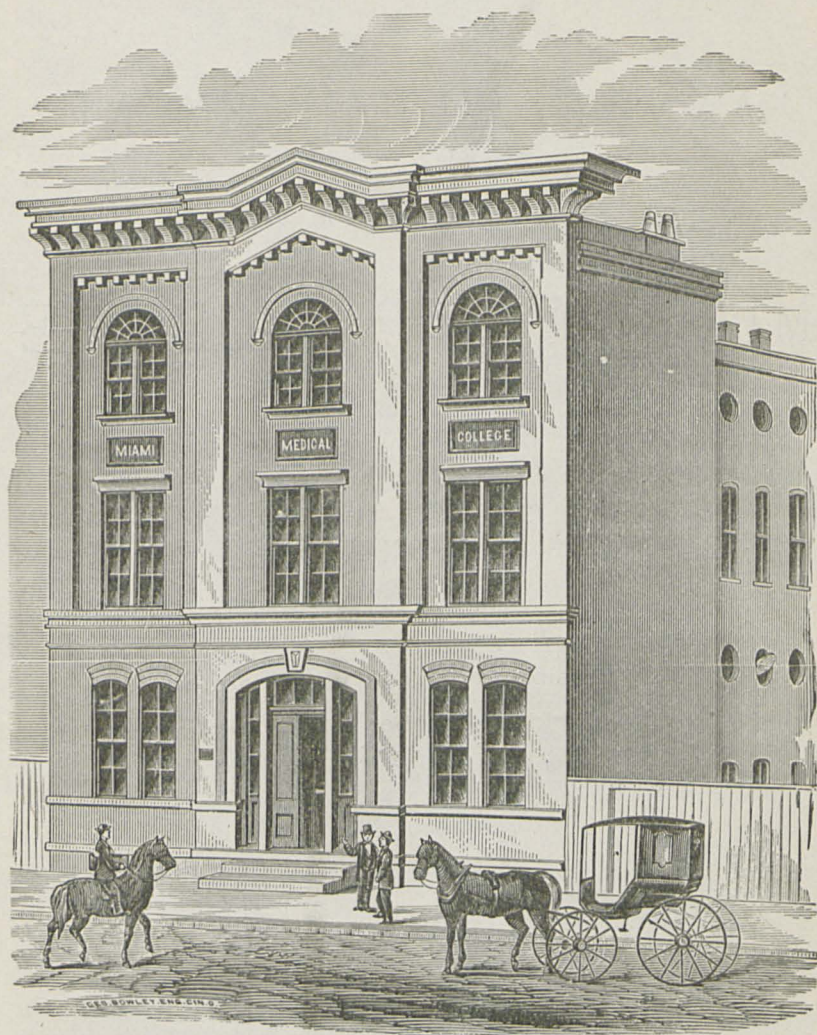

OF

CINCINNATI.

The Session of 1880-81 will begin on
Friday, October 1, 1880.

CINCINNATI:
THE A. H. PUGH PRINTING CO., 126 $\frac{1}{2}$ Walnut Street.
1880.

College Building, Twelfth Street, bet. Elm and Plum, opp. Cincinnati Hospital.

PROFESSORS

JOHN A. MURPHY, M. D.

Practice of Medicine

W. H. MUSSEY, M. D.

Operative and Clinical Surgery, and Surgical Diseases of Women

BOARD OF TRUSTEES.

W. CLENDENIN, M. D.

Descriptive and Surgical Anatomy

W. H. TAYLOR, M. D.

Operative and Clinical Medicine

PRESIDENT,

A. H. MCGUFFEY, Esq.

SECRETARY,

JOHN DAVIS, M. D.

RT. REV. T. A. JAGGAR.

HON. JACOB D. COX.

THEO. STANWOOD, Esq.

HON. L. A. HARRIS.

HON. W. L. AVERY.

ROBERT HOSEA, Esq.

JOHN A. MURPHY, M. D.

ROBT. BATTER, M. D.

Lecturer on Diseases of Eye and Ear

A. D. BENDER, M. D.

Lecturer on Laryngology and Diseases of Throat

C. A. LABOITHE, M. D.

Lecturer on Special Diseases

T. H. KEARNEY, M. D.

Lecturer on Diseases of Genitalia

T. HELLMANN, M. D.

Lecturer on Diseases of Genitalia

E. L. SEICHRIST, Professor at College

PROFESSORS.

JOHN A. MURPHY, M. D.,
Practice of Medicine,
No. 163 West Seventh Street.

W. H. MUSSEY, M. D.,
Operative and Clinical Surgery, and Surgical Diseases of Women,
No. 70 West Seventh Street.

E. WILLIAMS, M. D.,
Ophthalmology, Aural Surgery, and Clinical Ophthalmology,
No. 64 West Seventh Street.

W. CLENDENIN, M. D.,
Descriptive and Surgical Anatomy,
No. 136 West Seventh Street.

WM. H. TAYLOR, M. D.,
Obstetrics and Clinical Midwifery,
No. 329 West Seventh Street.

THOS. H. KEARNEY, M. D.,
Principles of Surgery, and Surgical Diseases,
No. 191 West Seventh Street.

J. C. MACKENZIE, M. D.,
Physiology, Pathology, and Clinical Medicine,
No. 163 West Seventh Street.

W. B. DAVIS, M. D.,
Materia Medica and Therapeutics,
No. 310 Elm Street.

BYRON STANTON, M. D.,
Diseases of Women and Children, and Clinical Gynæcology,
No. 690 Freeman Avenue.

J. F. JUDGE, M. D.,
Medical Chemistry and Pharmacy,
Sixth and Mound Street.

N. P. DANDRIDGE, M. D.,
Genito Urinary and Venereal Diseases.

WM. L. DUDLEY,
Chemistry and Toxicology.

B. P. GOODE, M. D.,
Lecturer on Diseases of Children.

ROBT. SATTLER, M. D.,
Lecturer on Diseases of Eye and Ear.

A. D. BENDER, M. D.,
Lecturer on Laryngoscopy and Diseases of Throat.

C. A. LEBOUTILLIER, M. D.,
Lecturer on Surgical Dressings.

T. H. KEARNEY, M. D.,
Demonstrator of Anatomy.

F. F. HELLMANN, M. D.,
Assistant Demonstrator of Anatomy.

E. L. SEICHRIST, Janitor at College, Twelfth Street, between Elm and Plum.

ANNOUNCEMENT FOR 1880-81.

IN issuing this, the TWENTY-FIRST Annual Announcement of the Miami Medical College, the Faculty take pleasure in assuring its Alumni and friends of its continued prosperity.

NEW ADDITION TO THE COLLEGE BUILDING.

The yearly increase in the number of Matriculants has made it necessary to enlarge the College building, which is now being done under the supervision of an experienced architect.

The addition to the building, together with the other improvements contracted for, will make the College practically new. The seating capacity of each of the lecture rooms will be increased about thirty-five per cent. The new part will contain a large *Chemical Laboratory*; a Laboratory for *Histology and Physiology*; also, two large rooms for *Clinical* purposes, and waiting rooms for patients.

The lecture rooms will be elegantly lighted, thoroughly ventilated, and pleasantly heated, so as to render them cheertul, airy and comfortable.

COLLEGE BUILDING.

The College Building is situated on Twelfth street, between Elm and Plum, nearly opposite the Cincinnati Hospital, and within one square of the Music Hall and Exposition buildings, and almost directly overlooking Washington Park. Among the many advantages that this central position gives the College, are, a pleasant and healthy locality, where good boarding may be had cheap, in comfortable private residences, and especially, convenient access to the Medical Library and Clinic Hall of the Cincinnati Hospital, without loss of time; also, direct communication with all parts of the city by street cars.

ARRANGEMENT OF SESSIONS.

The College year is divided into a Winter and a Spring Session; the former session is preceded by a *Preliminary Term*, which begins September 7th, and continues three weeks. The *Regular*, or *Winter Term* will commence on *Friday, October 1st, 1880*, and end about the first of March, 1881.

The *Spring Session* will commence March 15, and continue until May 15, 1880.

Attendance on the

PRELIMINARY TERM

Is not obligatory upon the student, but it is hoped that the proportion of the Class who avail themselves of the opportunity thus presented, will be even larger than heretofore.

THE REGULAR WINTER SESSION

Occupies *five months*. It will be seen by the Programme of Lectures, that the course of instruction for the coming session will be fully in accordance with the general advance of medical science, and the requirements of medical education.

THE SPRING COURSE

Is a valuable addition to the Winter Session, affording opportunity for consideration of important topics not included in the regular curriculum—also enabling the student to avail himself of private instruction, at a time when less occupied with public teaching.

TUITION.

The method of teaching in this College is by Didactic Lectures with Demonstrations, Recitations, Clinical and Special Instruction, including Physical Manipulation. The

MEANS FOR ILLUSTRATING DIDACTIC LECTURES

Consist of—A valuable OBSTETRICAL CABINET, to which a portion of the late Prof. M. B. Wright's COLLECTION has recently been added.

A CABINET OF MATERIA MEDICA, illustrating all articles belonging to this department, in addition to which, the handsome Pharmaceutical Cabinet of John U. Lloyd has been placed in our rooms.

The Anatomical Museum contains a great variety of beautiful and valuable specimens. It has been recently refitted with new cases, and the specimens so arranged as to be constantly available for study by the student.

The Pathological part of the College Museum is especially rich in specimens illustrating diseases of bone, deformities from fracture, dislocations, diseases of joints, &c., &c. This Museum includes the rare and valuable collection of both the Musseys (father and son), also that of the late Professor Shotwell.

Also a valuable CABINET OF MICROSCOPY, the property of Prof. Mackenzie.

PROF. N. P. DANDRIDGE.

The Trustees take pleasure in announcing that they have added to the Faculty Dr. N. P. DANDRIDGE, whose ability is fully recognized, and whose long connection with the Cincinnati Hospital as Pathologist and Surgeon, eminently qualify him to fill the chair to which he has been appointed, viz: Diseases of the Genito Urinary Organs, and Venereal Diseases. He will return from his European studies in time for the opening of the course.

PROGRAMME OF LECTURES FOR 1880-1881.

Hour.	Monday.	Tuesday.	Wednesday.	Thursday.	Friday.	Saturday.
8-9 A. M.	OPHTHALMOLOGICAL CLINIC.					
8 $\frac{3}{4}$ -10 $\frac{3}{4}$ A. M.	<i>Hospital Laboratory.</i>	<i>Hospital Laboratory.</i>	<i>Hospital Laboratory.</i>	<i>Hospital Laboratory.</i>	<i>Hospital Laboratory.</i>	<i>Hospital Laboratory.</i>

5 P. M.	MACKENZIE.	TAYLOR.	MACKENZIE.	TAYLOR.	MACKENZIE.	

CLINICS.

The Faculty being fully convinced of the great advantage afforded by such a course, combine to the fullest possible extent systematic Clinical instruction with didactic teaching in the Lecture Room. In order to make this plan as complete and available as possible.

COLLEGE CLINICS

were established in the early history of the school, and are now maintained throughout the entire year. Four *Special Clinics* are held daily in the College building, at which over six thousand patients are prescribed for annually, thus furnishing many interesting cases in Practice, Surgery, Gynæcology, Diseases of Children, Ophthalmology and Laryngoscopy; in all of which students have opportunities to make full examination of cases, especially in *Thoracic Diseases* and *Gynæcology*, and frequently to witness *Obstetric* cases; these Clinics are free to students of the College. These Clinics being conducted by Professors of the respective departments are especially valuable to advanced students and practitioners.

CINCINNATI HOSPITAL.

This is the great and only completely equipped hospital in the city. Four thousand patients were admitted during the last year. Every form of disease incident to this latitude is treated in its wards. Two hundred and eighty surgical operations were performed, and two hundred and forty women were delivered in its wards during the last year.

CLINICAL LECTURES

Two clinical lectures are delivered daily, Sunday excepted, from 8 $\frac{3}{4}$ to 10 $\frac{3}{4}$. The following programme of Clinical Lectures will be followed during the coming session:

From September 1 to December 1.

DR. C. G. COMEGYS,

PROF. MACKENZIE,

Clinical Medicine.

PROF. W. H. MUSSEY,

PROF. N. P. DANDRIDGE,

Clinical Surgery.

PROF. W. H. TAYLOR, Clinical Diseases of Women.

PROF. J. AUB, Eye and Ear.

DR. WALKER, Pathological Anatomy.

From December 1 to April 1, 1880.

PROF. J. A. MURPHY,

Clinical Medicine.

DR. WM. CARSON,

PROF. CONNOR,

Clinical Surgery.

DR. D. S. YOUNG,

DR. J. H. TATE, Chronic Diseases of Women and Children.

DR. S. C. AYRES, Eye and Ear.

PROF. ROTHAKER, Pathological Anatomy.

Private instruction is given at the bedside by different members of the staff, thus affording excellent opportunities to the industrious student to study the patient and his disease.

RESIDENT PHYSICIANS,

At the close of the session in each of the schools of the city, the staff of the Hospital, hold an examination on Medicine, Surgery, Diseases of Women and Children, Diseases of the Eye, and on Pathological Anatomy, to select six young gentlemen to fill the places of Resident Physicians for one year, beginning March 10, 1881.

All who have studied medicine three years, and have attended the clinical course preceding the examination, are admitted to the examination. The examination is strict and impartial.

Boarding and lodging are furnished to the Resident Physicians.

At the examination at the close of the last session, Messrs. Allen, Hart, Langdon and Davis of this College were elected.

Professors MURPHY, MUSSEY, TAYLOR, MACKENZIE and DANDRIDGE are connected with the staff of this Hospital.

SPECIAL CLINICS.

PROF. WILLIAMS' Eye and Ear Clinic is open to students of this College only, where special advantages are offered for studying Ophthalmology and Otology, and ROBERT SATTLER, M. D., conducts a similar Clinic daily at the College.

PROF. MUSSEY selects from his private practice, cases of special interest for illustrating to the class the more important diseases of bone, joints, &c. He also frequently performs capital operations before the class, at the College.

PRACTICAL INSTRUCTION.

PRACTICAL ANATOMY.

The Dissecting Room being at the top of the building, is well lighted and ventilated. It is supplied with water and every thing necessary for the comfort and convenience of Students. Each table is furnished with adjustable gas burners. During every evening of the winter session the Demonstrator or his Assistant are in attendance to direct and aid the Student in his study.

Practical Anatomy having been legalized in the State of Ohio, a full supply of material is guaranteed, and at a cost of *only about one third* of the former price

PRACTICAL SURGERY.

All advanced Students are trained in the application of bandages and surgical dressings, as well as in the use of instruments and appliances, and the performances of operations upon the subject. The immense and valuable store of instruments and apparatus, collected by the late Professor R. D. Mussey (during a long life of the largest experience in the practice of Surgery), together with the extensive collection of the present Professor of Operative and Clinical Surgery, W. H. Mussey, are exhibited to the class from time to time, and their uses illustrated and explained during the session.

PRACTICAL CHEMISTRY.

The Laboratory for Practical Chemistry is open five days each week of the winter session, and is under the supervision of the Professors of Chemistry. It is fully provided with the necessary apparatus. Each student is supplied with a separate table, and every thing requisite to enable him to learn to manipulate for himself, and to acquire a knowledge of chemical reactions, the principle of Qualitative Analysis, &c., &c.

PRACTICAL MICROSCOPY.

Demonstrations in Microscopic Anatomy will be given frequently during the winter session by Prof. Mackenzie and Dr. Robert Sattler. The latter will use in his demonstrate the calcium light by which the Microscopic object will be projected highly magnified upon a screen.

PROGRESSIVE COURSE.

It has long been the custom of this institution to encourage attendance on *three Courses of Lectures*, to facilitate which, special arrangements are made as follows:—Students may devote their attention the first session exclusively to the study of Anatomy, Materia Medica, Physiology, and Chemistry. The student will attend all the lectures of the second session, and at its close be examined on the four above mentioned topics, the examination, if satisfactory, be final. The third term will then be devoted to the more advanced branches exclusively.

PRIVATE INSTRUCTION.

Private instruction is given by members of the Faculty, and by other competent physicians approved by the Faculty.

“MEDICAL STUDENTS may take special studies in the McMICKEN UNIVERSITY classes free of charge, provided they be found on examination to be qualified to enter classes.”

LIBRARIES.

The PUBLIC LIBRARY of Cincinnati contains a valuable *Medical Library*, including the magnificent gift of over 6,000 volumes by Professor W. H. Mussey, M. D. The MUSSEY LIBRARY is very complete in itself; in it will be found all the more important medical works extant. The collection of medical periodicals will be found specially valuable and complete.

The CINCINNATI HOSPITAL LIBRARY contains over 2,500 of most recently published standard books of reference—English, German, French, &c., &c., including many that are rare and costly, and but seldom seen, excepting in large public libraries. All the valuable Medical Periodicals published throughout the world will be found upon the tables of this Library. The books are catalogued and arranged in elegant cases. The Library Hall is handsomely furnished, well lighted and heated.

Both of these libraries are available to, and are much used by the students of the Miami Medical College, without expense.

REQUIREMENTS FOR GRADUATION.

The candidate for the Degree of M. D.

1. Must produce satisfactory evidence of good moral character, and of having attained the age of twenty-one years.

I. He must produce a satisfactory certificate of having studied medicine at least three years, under a *regular* graduate, or licentiate, or practitioner of medicine in good standing.

III. He must have attended two full courses of lectures, of which the first one may have been in some other recognized Medical College, and the last in this Institution. The Lectures of the Spring Term cannot be counted as a regular course.

IV. He must have pursued the study of Practical Anatomy under the direction of the Demonstrator of Anatomy.

V. He must have taken one course of Practical Chemistry, under the direction of the Professor of Chemistry, or his Assistant.

VI. He must have attended the Clinical Course of the City Hospital.

VII. He must notify the Secretary of the Faculty of his intention of becoming a candidate, depositing the graduation fee on or before January 15th.

VIII. Every candidate must undergo a full and satisfactory examination on each branch taught in the College.

IX. Students may become candidates after attending two full courses of lectures at any accredited *Dental College*, where full courses are given on Anatomy, Materia Medica, Physiology, and Chemistry, after attending one full course at this College, besides one course on Surgery, Practice of Medicine, and Obstetrics.

Students who have attended two full courses of Lectures on Chemistry and Materia Medica at any recognized *College of Pharmacy*, will be admitted to the examinations for the degree of M. D., after attending one full Course of Lectures in this College, besides one Course on Anatomy, Surgery, Practice of Medicine, Physiology, and Obstetrics.

PRIZE.

A PRIZE of ONE HUNDRED DOLLARS in Gold, will be presented at the close of the session, to the student who on examination, exhibits the greatest proficiency in *each* of the branches taught in the College. All members of the Graduating Class may compete for this prize.

FEEES AND EXPENSES.

Matriculation Fee (annually)	\$5 00
Regular Lecture Term	75 00
Graduation Fee	25 00
Demonstrator's Ticket	5 00
Hospital Ticket	5 00

Graduates of other Schools, of not less than three years' standing, who attend this College, with the expectation of graduating, will pay fifty dollars and the matriculation fee.

Alumni of this Institution, students who have paid for two full courses, and graduates of three years' standing in other accredited colleges, are entitled to attend free of all charges. Students who have attended two full courses of lectures in any accredited Medical College, will be admitted to all the lectures of one regular course in the Miami Medical College, on payment of forty dollars. Graduates of other Colleges, of less than three years' standing, will pay a fee of fifty dollars. To graduates of accepted Dental Colleges and Colleges of Pharmacy the full fee for a general ticket will be charged.

TEXT BOOKS.

Students are advised to procure one or more of the following Text books:

Ophthalmology and Otology: Stellwag, Wells, Toynbee.

Surgery: Erichsen Ashhurst, Bryant, Hamilton on Fractures; Billroth,

Paget, Bumstead on Venereal; Duhring on Skin Diseases; Liveing on
Anatomy: Gray, Holden, Wilson. [Skin Diseases.]

Physiology: Foster, Dalton, Flint, Carpenter.

Chemistry: Attfield, Fownes, Roscoe, Eliot and Storer's Qualitative Analysis.

Institutes of Medicine: Williams, Da Costa, Green's Pathology.

Practice of Medicine: Niemeyer, Watson, Aitken, Flint, Roberts; Delafield
on Physical Diagnosis.

Obstetrics: Leishman, Playfair.

Therapeutics: H. C. Wood, Stille, Ringer, Waring.

Masteria Medica: National Dispensatory.

Diseases of Women: Thomas.

Diseases of Children: J. L. Smith.

EXPENSES OF LIVING, BOARD, Etc.

Good board may be had from \$3 to \$6 per week. Living expenses in Cincinnati are as moderate as in any large city, and vary with the habits and tastes of the individual.

Students, on arriving in the city, should at once call upon the Janitor, at the College, No. 143 Twelfth Street, or on either of the Professors, who will aid them in procuring suitable boarding places.

The ALUMNI of this Institution are requested to keep the Secretary advised of their post office address; and it will be a favor if they furnish lists of the prominent physicians of their respective localities.

All Physicians desiring to receive the Annual Circular regularly, will please forward their names and address.

ARTICLES OF CONFEDERATION
OF THE
AMERICAN MEDICAL COLLEGE ASSOCIATION.

MIAMI MEDICAL COLLEGE IS A MEMBER.

ARTICLE I.—OF THE FACULTY.

The medical members of the Faculty must be *regular* graduates or licentiates and practitioners of medicine in good standing, using the word "regular" in the sense commonly understood in the medical profession.

ARTICLE II.—OF TUITION.

SEC. 1. The scheme of tuition shall provide for a yearly systematic course of instruction covering the general topics of Anatomy, including Dissections, Physiology, Chemistry, Materia Medica, and Therapeutics, Obstetrics, Surgery, Pathology, and Practice of Medicine. The collegiate session wherein this course is given shall be understood as the "Regular" session.

ARTICLE III.—REQUIREMENTS FOR GRADUATION.

No person, whether a graduate of Medicine or not, shall be given a Diploma of "Doctor of Medicine" who shall not have fulfilled the following requirements, *except* as hereinafter provided for in Article IV:

1. He must produce satisfactory evidence of good moral character, and of having attained the age of twenty-one years.
2. He must file a satisfactory certificate of having studied medicine at least three years under a *regular* graduate or licentiate and practitioner of medicine, in good standing, using the word "regular" in the sense commonly understood in the medical profession. No candidate shall be eligible for final examination for graduation unless his term of three years' study shall have been completed, or shall expire at a date not later than three months after the close of the final examinations. This section to take effect at and after the session of 1879-80.

3. He must file the proper official evidence that, during the above mentioned three years, he has matriculated at some affiliated college, or colleges, for two regular sessions, and in the course of the same (except as provided in 4), has attended two full courses of instruction on the seven topics mentioned in Article II. But the *latter*, at least of the two full courses must have been attended at the College issuing the Diploma. No two consecutive courses of instruction shall be held as satisfying the above requirements unless the time between the beginning of the first course and the end of the second is greater than fifteen months.

4. In case a College shall adopt a systematic graduated scheme of tuition, attendance on the whole of the same shall be equivalent to the requirements mentioned in 3, *provided* such scheme includes instruction in the seven topics mentioned in Article II, and require attendance at least at two yearly regular collegiate sessions of not less than twenty weeks' duration each.

5. The candidate must have passed a personal examination before the Faculty on all seven of the branches of medicine mentioned in Article II.

6. He must have *paid in full all College dues*, including the graduation fee.

ARTICLE IV—OF HONORARY DEGREES.

An honorary degree of "Doctor in Medicine" may be granted in numbers not exceeding one yearly, to distinguished physicians or scientific men over forty years of age. But in each case the Diploma shall bear across its face the word "Honorary" in conspicuous characters, and the same word shall always be appended to the name of the recipient, in all lists of graduates.

ARTICLE V.—OF FEES.

SEC. 1. All fees shall be paid in lawful money, and no promissory notes or promises to pay shall be accepted in lieu of cash for payment of fees.

SEC. 2. No ticket, or any other certificate of attendance upon college exercises shall be issued to any student until the dues for the same shall have been fully paid.

SEC. 3. The established fees for the exercises of the regular session—except the matriculation fee, graduation fee, fee for dissections—may be reduced not more than one half to graduates of other affiliated colleges of less than three years' standing, and to undergraduates of the same, who have already attended two full courses of instruction of the regular session.

SEC. 4. The same fees may be remitted all together to a college's own alumni, to graduates of other affiliated colleges of three years' standing (the three

years dating from the time of graduation, and ending at the close of the session for which the tickets are given), to undergraduates who have already attended two full courses of the instruction of the regular session, the latter of which, at least, shall have been in the College making the remission, and to theological students when not candidates for a diploma.

SEC. 5. The same fees may be reduced or remitted to deserving indigent students, to a number not exceeding *five* per cent of the number of matriculates at the previous regular session of the College.

SEC. 6. Under no circumstances whatever other than the above shall the faculties, or any member of the same, grant, *upon their own authority*, any remissions or reductions of established fees. And it is distinctly understood and agreed that the faculties will discountenance and oppose the authorizing, by governing boards, of admission of individual students on other than the regularly established charges for their grade.

SEC. 7. Remission or reduction of fees for other exercises than those of the regular session, return to any student of any moneys after payment of fees, or an appropriation of funds of the College for payment of any student's fees, or part thereof, shall be deemed a violation of the provisions of this article in regard to remission or reduction of fees.

ARTICLE VI.—OF RECOGNITION OF OTHER COLLEGES.

No College shall admit to the privileges accorded in Articles III and V, the students or graduates of any College which during any period of the student's or graduate's pupilage shall have been excluded from the list of affiliated colleges recognized by the Association.

ARTICLE VII.—AMENDMENTS.

Amendments to these Articles shall be proposed and adopted in the manner prescribed for amendments to the Constitution.

The following named Colleges are members of the Association:

Cleveland Medical College, Cleveland, Ohio.

Medical Department University of Louisville, Louisville, Ky.

Hospital College of Medicine, Louisville, Ky.

Medical Department Iowa State University, Iowa City, Iowa.

Chicago Medical College, Chicago, Ills.

Medical Department University of Wooster, Cleveland, Ohio.

Detroit Medical College, Detroit, Mich.

Starling Medical College, Columbus, Ohio.

Medical Department Universities of Nashville and Vanderbilt, Nashville,
 Missouri Medical College, St. Louis, Mo. [Tenn.
 Kansas City College of Physicians and Surgeons, Kansas City, Mo.
 Miami Medical College, Cincinnati, Ohio.
 Louisville Medical College, Louisville, Ky.
 Rush Medical College, Chicago, Ills.
 Bellevue Hospital Medical College, New York City.
 Ohio Medical College, Cincinnati, Ohio.
 Medical College of State of South Carolina, Charleston, S. C.
 Columbus Medical College, Columbus, Ohio.
 Woman's Hospital Medical College of Chicago, Ill.
 Medical Department University of Louisiana, New Orleans, La.
 Medical Department University of Vermont.
 Dartmouth Medical College.
 Medical Department Michigan University.
 Kentucky School of Medicine.
 Atlanta Medical College.
 Jefferson Medical College.
 College of Physicians and Surgeons, New York.
 Texas Medical College and Hospital.
 Alabama Medical College.

Document from the collections of the AAMC. Not to be reproduced without permission.

GRADUATES.

The degree of Doctor of Medicine was conferred by the HON. JACOB D. COX, Vice-President of the Board of Trustees, at Robinson's Opera House, on March 1st, 1880, on the following gentlemen:

LIST OF GRADUATES.

BRAYTON, FORREST WALTER, Ohio.	KING, STEPHEN OSCAR, . . . Texas.
BROCKERMAN, GIDEON, . . . Ohio.	KINGSBURY, GEO. CROZIER, . . . Ill.
COFFIN, WILLIAM VESTAL, . . Kas.	LEEVEY, JOHN COLLINS, . . . Ohio.
