MEDICAL COLLEGE OF OHIO

# MEDICAL COLLEGE OF OHIO

CINCINNATI

FOUNDED 1819.

Sixtieth Annual Catalogue and Announcement,  
SESSION OF 1880-81.

# MEDICAL COLLEGE OF OHIO.

THE PRELIMINARY TERM will begin on the 1st of September, and continue till the opening of the *Regular Session*, the 4th of October. Students are urgently requested to avail themselves of this preliminary course, which is included in the regular fee.

## OFFICERS OF THE COLLEGE.

### BOARD OF TRUSTEES.

HON. FLAMEN BALL,	PRESIDENT.
THOMAS SHERLOCK, Esq.,	SECRETARY.
HON. HENRY E. SPENCER,	JOSEPH LONGWORTH, Esq.,
HON. WM. DICKSON,	HON. M. F. FORCE,
HON. H. C. WHITMAN,	HON. AARON F. PERRY,
THEODORE COOK, Esq.,	MR. ROBERT MITCHELL.
HON. JOHN F. FOLLETT.	

### FACULTY.

W. W. SEELY, M. A., M. D., *Professor of Diseases of the Eye and Ear and Clinical Ophthalmology and Otology.*—SECRETARY. S. E. Cor. 4th and Broadway.  
 P. S. CONNER, M. A., M. D., *Professor of Anatomy and Clinical Surgery.* 159 W. 9th.  
 SAMUEL NICKLES, M. D., *Professor of Materia Medica and Therapeutics and Clinical Medicine.* 119 Everett.  
 JAMES T. WHITTAKER, M. A., M. D., *Professor of the Theory and Practice of Medicine and Clinical Medicine.* 100 W. 8th.  
 W. W. DAWSON, M. D., *Professor of the Principles and Practice of Surgery and Clinical Surgery.*—DEAN. N. W. Cor. 3rd and Broadway.  
 THAD. A. REAMY, M. D., *Professor of Obstetrics and Diseases of Children, and Clinical Midwifery.* 278 W. 4th.  
 C. D. PALMER, M. D., *Professor of Medical and Surgical Diseases of Women and Clinical Gynecology.* Findlay and Baymiller.  
 F. FORCHHEIMER, M. D., *Professor of Physiology and Clinical Diseases of Children.* 127 W. 9th.  
 JOSEPH RANSOHOFF, M. D., F. R. C. S., *Professor of Descriptive Anatomy and Clinical Surgery.* 296 Walnut.  
 JAMES G. HYNDMAN, M. D., *Professor of Medical Chemistry.* 83 W. 8th.  
 FREDERIC KEBLER, A. B., M. D., *Lecturer on Pathology.* 137 W. 8th.

J. L. CILLEY, M. A., M. D., *Demonstrator of Anatomy.*  
 CHAS. H. THOMAS, M. A., M. D., *Assistant Demonstrator of Anatomy.*

JAS. G. HYNDMAN, M. D., *Clinical Lecturer on Laryngology and Physical Diagnosis.*  
 FR. A. ROEDER, Ph. D., *Demonstrator of Chemistry.*  
 FREDERIC KEBLER, A. B., M. D., *Instructor in Morbid and Physiological Histology.*

### ASSISTANTS.

GEORGE B. ORR, M. D., <i>Assistant to the Chair of Anatomy.</i>	FREDERIC KEBLER, A. B., M. D., <i>Assistant to the Chair of Practice.</i>
E. G. ZINKE, M. D., <i>Assistant to the Chair of Gynecology.</i>	EDWARD W. WALKER, A. B., M. D., <i>Assistant to the Chair of Physiology.</i>
GILES S. MITCHELL, M. D., <i>Assistant to the Chair of Obstetrics.</i>	CHARLES JULIUS FUNCK, M. D., <i>Assistant to the Chair of Descriptive Anatomy.</i>

### PHYSICIANS AND SURGEONS TO THE DISPENSARY.

PROF. W. W. SEELY, M. D., <i>Eye and Ear Department.</i>	PROF. JOS. RANSOHOFF, M. D., F. R. C. S., <i>Surgical Dep't.</i>
PROF. SAMUEL NICKLES, M. D., <i>Medical Department.</i>	PROF. JAS. G. HYNDMAN, M. D., <i>Laryngology and Physical Diagnosis.</i>
PROF. C. D. PALMER, M. D., <i>Gynecological Department.</i>	EDWARD W. WALKER, M. D., <i>Surgical Dep't.</i>
E. G. ZINKE, M. D., <i>Assistant.</i>	JOHN L. CLEVELAND, M. A., M. D., <i>Medical Dep't.</i>
PROF. F. FORCHHEIMER, M. D., <i>Children's Department.</i>	A. G. DRURY, M. A., M. D., <i>Medical Department.</i>
J. F. HESSE, M. D., <i>Clinical Assistant.</i>	A. Q. MARSHALL, <i>Janitor.</i>

### STAFF OF THE GOOD SAMARITAN HOSPITAL.

(Clinical Department of the College.)

PROF. W. W. DAWSON, <i>Surgery.—President.</i>	PROF. THAD. A. REAMY, <i>Gynecology and Obstetrics.</i>
PROF. W. W. SEELY, <i>Eye and Ear.</i>	PROF. F. FORCHHEIMER, <i>Diseases of Children.</i>
PROF. P. S. CONNER, <i>Surgery.</i>	PROF. JOSEPH RANSOHOFF, <i>Skin Diseases.</i>
PROF. JAMES T. WHITTAKER, <i>Medicine.</i>	FREDERIC KEBLER, M. D., <i>Pathology.</i>

### INTERNES.

BROOKS F. BEEBE, M. D.                      JAMES M. FRENCH, M. D.                      MILTON C. WILSON, M. D.

The charter of the Medical College of Ohio was granted by the Legislature of Ohio in 1819. This institution is, therefore, much the senior of any other medical school in the West. Annual courses of lectures have been delivered by the Faculty with unvarying regularity during the sixty years of the existence of the school. It is most gratifying to be able to announce that the second semi-centennial has been signalized by a very remarkable increase in the attendance of students, and it is a subject of just pride on the part of the Trustees and Faculty that the school now ranks as respects the number of its students, and the character of its Alumni, as one of the greatest colleges in the country.

The success of the Medical College of Ohio is, in part, attributable to the age and standing of the school, and in part to the extraordinary efforts continuously put forth by the Faculty to increase the extent, variety and thoroughness of the instruction. The Faculty deem it but just in view of the position of the College, that the following pages, setting forth as tersely as possible the arguments in its behalf, be carefully considered by the profession and students.

The time is already at hand when no student can afford to get a diploma until he has had the most thorough preparation, and to enable students to acquire such a preparation, among other things, a VOLUNTARY GRADED SYSTEM was established four years ago as follows.

## FIRST YEAR.

Anatomy; Practical Anatomy; Physiology; Chemistry.

## SECOND YEAR.

Anatomy, Surgical and Practical; Practical Physiology; Practical Chemistry; Materia Medica and Therapeutics; Clinical Medicine and Surgery.

## THIRD YEAR.

Surgery; Practice of Medicine; Obstetrics and Gynæcology; Materia Medica and Therapeutics; Ophthalmology; Clinical Medicine and Surgery.

At the end of each term, examinations will be held in these departments, and certificates of proficiency will be given to those who are qualified.

This plan of instruction is *entirely optional*. Students who prefer to continue their studies on the *repetitional* system heretofore used, can do so hereafter, but the Faculty strongly urge upon those whose means and opportunities permit, to avail themselves of the increased advantages afforded by the voluntary graded course.

Students taking the voluntary graded course will be required to pay the full fee of \$75 each session. This fee is to include the examinations and certificates.

## COLLEGE PUPILS.

To still further encourage medical students in the effort to obtain a more thorough medical education, the Faculty have inaugurated the plan of *continuous college instruction*, which will, of course, be entirely voluntary. Students who enter on this course will be known as "College Pupils," and their studies will be directed and their examinations conducted by members of the Faculty in their respective departments. Each College Pupil will become the private student of each member of the Faculty, who will directly superintend his instruction for one month each year. No student will be admitted to this course—unless a graduate in arts—until he has passed a satisfactory preliminary examination. The examinations for this class will be held annually, at the opening of the Preliminary Term in September. Fee, \$150 per year.

SIXTIETH ANNUAL CIRCULAR AND CATALOGUE.  
REGULAR COURSE OF DIDACTIC INSTRUCTION.  
— SESSION OF 1880—81. —

The regular didactic instruction in the college will consist, as heretofore, of a Preliminary Term, the Winter Session, and a Spring Course. During the PRELIMINARY TERM (commencing September 1st), attendance on which is optional, the course of instruction will be as follows:

MEDICAL COLLEGE OF OHIO.						
PRELIMINARY TERM, 1880-81.						
ORDER OF LECTURES.						
HOURL.	MONDAY.	TUESDAY.	WEDNESDAY.	THURSDAY.	FRIDAY.	SATURDAY.
A. M. 9-10	Daily Morning Clinics at the College in all Departments by the Faculty.					
College Didactic Lectures, 10-11	Professor Whittaker.	Professor Seely.	Dr. Zinke.	Professor Reamy.	Professor Hyndman.	Good Samaritan Hospital.
11-12	Professor Ransohoff.	Professor Palmer.	Dr. Drury.	Professor Nickles.	Professor Forchheimer.	Professor Whittaker.
P. M. 3-4	Dr. Walker.	Dr. Cilley.	Good Samaritan Hospital. Prof. Dawson. Prof. Reamy.	Dr. Kebler.	Dr. Cilley.	
4-5	Dr. Cleveland.	Dr. Roeder.		Dr. Thomas.	Dr. Mitchell.	
Evenings.—PRACTICAL DEPARTMENTS.						

The Preliminary Term continues during the month of September.

The REGULAR WINTER SESSION commences October 4th. The course will be inaugurated by a series of popular lectures given by the various members of the Faculty, as in the last seven years.

The number and order of lectures during the ensuing session will be about the same as last year, when they were as follows:

REGULAR COURSE. BULLETIN, 1879-80.						
FIFTY-NINTH ANNUAL SESSION.						
HOURL.	MONDAY.	TUESDAY.	WEDNESDAY.	THURSDAY.	FRIDAY.	SATURDAY.
A. M. 9½-10½.	Daily Morning Clinics at the College in all Departments by the Faculty.					
College Didactic Lectures, 11-12.	Prof. Whittaker <i>Theory and Practice</i>	Prof. Nickles <i>Materia Medica</i>	Prof. Reamy <i>Obstetrics</i>	Prof. Whittaker <i>Theory and Practice</i>	Prof. Nickles <i>Materia Medica</i>	Prof. Reamy <i>Obstetrics</i>
12-1.	Prof. Dawson <i>Surgery</i>	Prof. Conner <i>Anatomy</i>	Prof. Whittaker <i>Theory and Practice</i>	Prof. Conner <i>Anatomy</i>	Prof. Dawson <i>Surgery</i>	Prof. Conner <i>Anatomy</i>
P. M. 3-4.	Prof. Ransohoff <i>Descriptive Anatomy</i>	Prof. Reamy <i>Obstetrics</i>	Good Samaritan Hospital.	Prof. Ransohoff <i>Descriptive Anatomy</i>	Good Samaritan Hospital 3-4	Prof. Ransohoff <i>Descriptive Anatomy</i>
4-5.	Prof. Palmer <i>Gynecology</i>	Professor Forchheimer <i>Physiology</i>	2½-3½ Prof. Seely	Prof. Palmer <i>Gynecology</i>	Prof. Reamy 4-5	Professor Forchheimer <i>Physiology</i>
5-6.	Dr. Hyndman <i>Medical Chemistry</i>	Prof. Seely <i>Ophthalmology</i>	3½-4½ Prof. Dawson	Prof. Seely <i>Ophthalmology</i>	Prof. Ransohoff 5-6	Dr. Hyndman <i>Medical Chemistry</i>
Dissecting Room, Chemical and Physiological Laboratories open Every Evening.						

The Spring Term is a practical course of eight weeks, and begins about the 15th of March. It is intended to supplement the instruction of the winter session, and attendance upon it is optional.

THE SPRING TERM.—Particular attention is called to the instruction to be given hereafter during two months in the Spring. This is a season when practitioners, recent graduates, and undergraduates can avail themselves of two months of the most solid work. The Course hereafter will be adapted to all classes, the most advanced as well as beginners, as it will consist of practical illustrations, didactic lectures and recitations, the latter more especially for beginners. No time is better adapted, for example, for work in the dissecting-rooms. During the Spring Course just ended, over twenty-five students dissected. During this season material can be had in abundance, and advanced students and graduates can do their work in a thorough manner. There ought to be between one and two hundred students in the College during this period, a large part simply engaged in rounding off their preparation for practice, and to this extent the most abundant facilities will be afforded.

Students who matriculate for this term are not required to pay for the matriculation ticket of the ensuing Winter session. The following was the order for 1880.

MEDICAL COLLEGE OF OHIO.  
SPRING COURSE BULLETIN.

HOUR.	DISPENSARY AS DURING THE WINTER SESSION.					
A. M.	MONDAY.	TUESDAY.	WEDNESDAY.	THURSDAY.	FRIDAY.	SATURDAY.

10-11.	<i>Urinalysis</i>	Prof. Nickles <i>Experimental Therapeutics</i>	Dr. Roeder <i>Toxicology</i>	Prof. Ransohoff <i>Surgery of the Viscera</i>	Prof. Nickles <i>Experimental Therapeutics</i>	Dr. Mitchell <i>Diseases of Pregnancy</i>
11-12.	Prof. Ransohoff <i>Surgery of the Viscera</i>	Prof. Whittaker <i>Medical Electricity</i>	Dr. Orr <i>Hernia</i>	Prof. Whittaker <i>Medical Electricity</i>	Prof. Dawson <i>Special points in General Surgery</i>	Dr. Zinke <i>The Ear</i>
12-1.	Prof. Dawson <i>Special points in General Surgery</i>	Dr. Drury <i>Human Entozoa</i>	Good Samaritan Hospital.	Professor Forchheimer <i>Diseases of Children</i>	Good Samaritan Hospital.	Dr. Kebler <i>Physical Diagnosis</i>
P. M.	Professor Forchheimer <i>Diseases of Children</i>	Dr. Walker <i>Veneral Diseases.</i>	3½-4½	Dr. Gilley <i>Osteology</i>	3-4	Dr. Thomas <i>Demonstrations in Anatomy</i>
3-4.	Dr. Cleveland <i>Food</i>	Prof. Conner <i>Operative Surgery</i>	4½-5½	Prof. Reamy <i>Operative Obstetrics</i>	4-5	Prof. Conner <i>Operative Surgery</i>
5-6.	Prof. Reamy <i>Operative Obstetrics</i>		Prof. Reamy		Prof. Whittaker	

Evenings.—PRACTICAL ANATOMY AND LABORATORY WORK.

The lectures of the Spring term will be demonstrative, didactic and recitative. Physical diagnosis will be taught in the hospital wards and in the dispensary, and Operative Surgery, Operative Obstetrics, Operative Gynecology and Operative Ophthalmology demonstrated on the cadaver. During this term the practical laboratories—Chemical and Physiological—and the dissecting rooms, will be open, and special facilities afforded for study and practice in these departments of instruction.

PRIVATE COURSES.

A feature of peculiar excellence in this institution, and first introduced here in the United States, is the opportunity furnished advanced students and practitioners by the operative courses of short duration on special topics in medicine and surgery.

These topics include Operative Surgery, Operative Obstetrics, Operative Ophthalmology, Physical Diagnosis, Urinalysis, etc.

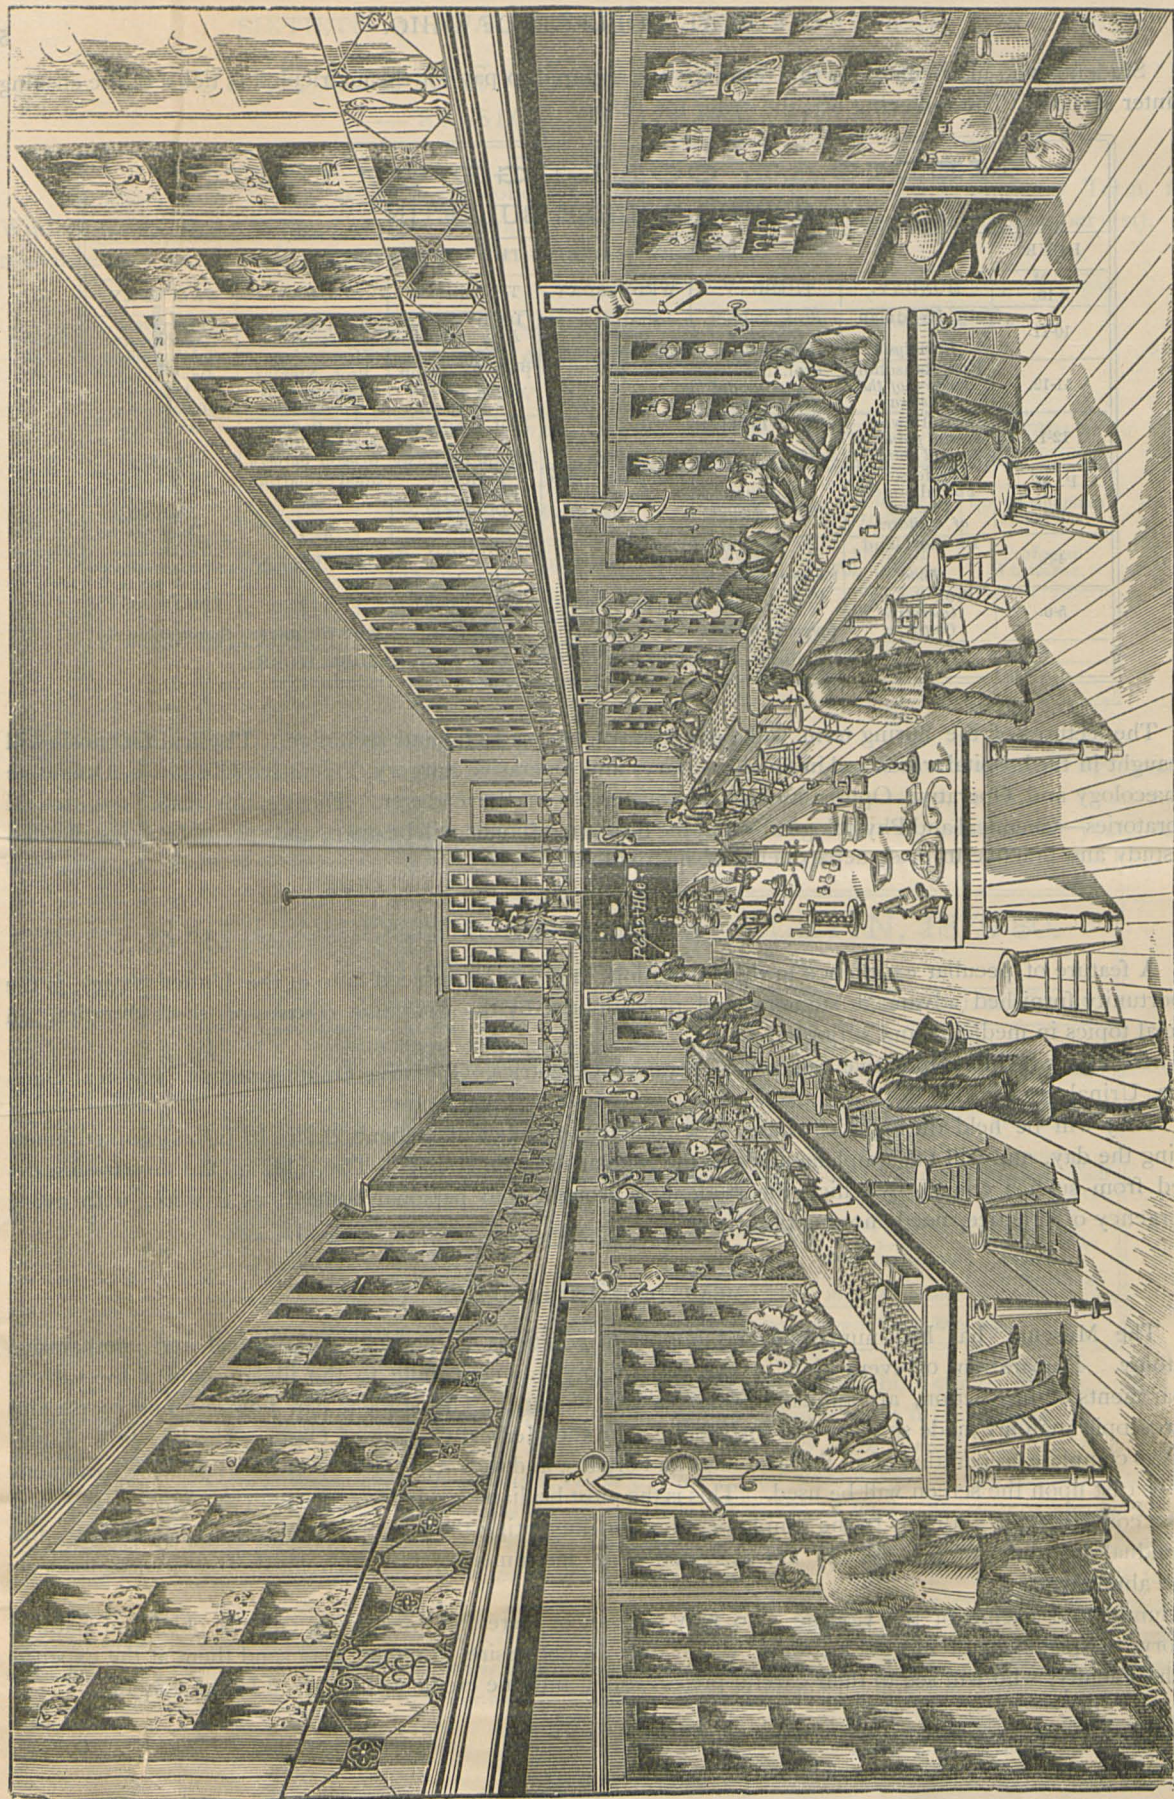

They will be held during the winter, if a sufficient number of students desire it, in unoccupied hours during the day, and will be complementary to the regular didactic course. The value of the preparation derived from such a course, by which the student is brought into personal contact, as it were, with every emergency of practice, needs no mention here.

MEANS OF ILLUSTRATION

The Museum has had numerous and important additions in normal, pathological and comparative anatomy. Preparations of every kind, which can in any way contribute to the illustrations of the various departments of instruction, are annually added by the Faculty. The student can nowhere find coarse and microscopic anatomy made so clear and instructive as in the Medical College of Ohio. The late Prof. Longworth's complete preparation of all the structures and organs, and the *electric light* by which even solid specimens can be cast upon the screen will be used. This is the most brilliant and perfect course in anatomy to be found in the country. In addition to the ample material for illustrating the lectures possessed by the College, the individual members of the Faculty are provided with instruments, drawings, casts and preparations in great abundance.

Alumni and friends of the College who may possess, or hereafter meet with, curious objects of natural history, or specimens of morbid anatomy, which they do not desire to retain, may send them at the expense of the Faculty, who will see to their careful preservation, and due credit will be given to the donors.

COLLEGE MUSEUM AND

PRACTICAL CHEMICAL LABORATORY.

## A CHAIR ON GENERAL PATHOLOGY.

The Faculty calculate with confidence upon the approbation of the profession at large, in the recent creation by the Board of Trustees of a Chair of General Pathology and Morbid Anatomy. The Chairs of Practice and Surgery are already so overburdened with the absolute necessary details connected with symptomatology, diagnosis and treatment, that the subjects of etiology and morbid anatomy, essential departments in the higher education in medicine, could be only cursorily and superficially handled. In the creation of a new chair to treat of these grades exclusively, the student will have the opportunity to become familiar with the science as well as with the art of medicine, and thus secure for himself a solid basis for all future instructions.

The Faculty congratulate the friends of the College in the appointment made by the Board of Trustees of Dr. Frederic Kebler, to the Lectureship in this important branch of medical services. After graduating at the College, Dr. Kebler spent a number of years in Europe, engaged in the study more especially of normal and morbid histology, and since his return has conducted the courses in the histological laboratory at the College for the last three years. Dr. Kebler has been able to interest his classes in this much neglected subject to that degree that the number of students in attendance every evening has been constantly on the increase, a fact which is perhaps the most satisfactory evidence that could be adduced as to the value and appreciation of the instruction. We feel safe in saying that the lecturer will assume the duties that devolve upon him with the enthusiasm that insures success. The College Museum still has its varied illustrations of Morbid Anatomy, to which new specimens have been added from time to time, and the museum has lately been enriched by the donation of his private collection by Dr. Thos. Wood, a distinguished surgeon of this city, one of the early professors of anatomy in the college. During last session the histological rooms were filled in both courses throughout the session.

## THE CHAIR OF CHEMISTRY.

Dr. James G. Hyndman, who has been appointed by the Board of Trustees to the Chair of Medical Chemistry, graduated with the highest honors from the Medical College of Ohio, after a three years' course. He then became interne to the Cincinnati Hospital for two years. Dr. Hyndman, has been so many years before the profession as instructor in the College and as editor of the Clinic, as to need no special introduction.

## THE CHEMICAL LABORATORY.

Instruction in Practical Chemistry has now become a prominent feature in the course of medical education. The removal of the Laboratory from its former limited quarters to the lower floor of the museum was rendered necessary a few years ago, and the constantly increasing demand for *personal practical experience* in this commonly neglected and useful department, has afforded the Faculty the greatest satisfaction. The Laboratory has been fitted up in such a manner as to afford the greatest possible convenience and facility for experiment and actual work, and is provided with an extensive assortment of furniture and apparatus for the prosecution of the most advanced researches in medical chemistry, so that the student may be trained in the use of the microscope, spectroscope, and the appliances of physical and chemical investigation.

The course of instruction pursued in the Laboratory commences with the qualitative analysis of simple and compound substances, with special reference to such as are used in medicine; its practical application in determining the composition of medicinal agents, and in detecting their impurities and adulteration, the physical and chemical examination of urine, and of other substances of interest to the physician and student. The reactions involved in these processes are demonstrated on the blackboard, and each student is trained in writing formulæ and chemical equations, under the direct supervision of the demonstrators. An additional course of instruction will be given in volumetric analysis, and its application in estimating the constituents of urine, etc., or in any other department of chemistry that may be desired. Every effort will be made to comprise in this instruction such as is of most practical value to the physician, and to enable him to meet the re-

quirements that the present state of medical science demands. The entire control of the Laboratory belongs to Prof. Hyndman, who has a most accomplished assistant in Dr. Roeder. The admission fee to the Laboratory is \$5, and cost of material used also \$5.

In view of the large number of applicants for the first class, which will begin work September 1st, *students can send in their names and \$5 to the Secretary*, who will return them their Laboratory ticket, containing the number of their seat. In this way SIXTY-FOUR students can get through with one course in the Laboratory before the dissecting season begins.

#### THE PHYSIOLOGICAL LABORATORY.

Physiology has become one of the foundation-stones in modern medicine, and thorough instruction in this department is a feature of the very first importance in a medical school. But that physiology may be taught efficiently, it must be taught practically. The various subjects must be demonstrated *ex cathedra*, by specimens, casts, plates and experiments, and the student must be enabled to learn for himself the use of the various instruments of precision, which alone render possible the attainment of exact results.

The lectures on physiology will be illustrated more abundantly this year than ever before. Microscopic exhibitions will be given when the nature of the subject will admit it. Such experiments as can only be properly demonstrated by vivisection will be shown in this way, but the principal work in this field of demonstration will be performed in the PHYSIOLOGICAL LABORATORY. A physiological laboratory has now become as essential an element in medical education as a working-room for chemistry, and the full equipment of this laboratory will be regarded by the profession, as the best evidence of the endeavor of the Faculty to furnish to the student every possible means of instruction. The chief use of the physiological laboratory, is to bring each individual student into actual contact with the subject being considered. He will, as far as possible, prepare and investigate his own specimens, and to a certain extent perform his own experiments. A very fine collection of pathological specimens (microscopic), form part of the paraphernalia of this room, and microscopes *will be furnished free*, to such students as may be unable to procure their own instruments. The physiological laboratory will be under the immediate charge of Dr. Kebler, who will devote his entire time to this work.

In the physiological laboratory thorough examinations—macroscopic and microscopic—will be made of any morbid specimen sent for the purpose and a report returned; provided the specimen thus examined be contributed to the Museum of the College.

A nominal fee only is charged for keeping the room in order and providing material, so no student can plead expense as an excuse for not availing himself of the practical knowledge to be obtained here.

Arrangements have been made by which students wishing to pursue collateral studies, can obtain instruction in chemistry, physics, zoology, geology, and many other subjects, at the University of Cincinnati. Students in the medical schools of this city, whether residents of Cincinnati or not, are permitted, if qualified, to join University classes, tuition free. Reasonable fees are, however, charged those who wish to use the University laboratories.

#### THE PRACTICAL ANATOMY ROOMS.

The Faculty would call especial attention to the note on this most important department. The rooms have been fitted up with all the conveniences, such as stationary wash-stands, &c. These rooms are large, well ventilated, are kept in the most perfect order, and are under the exclusive control of Dr. Cilley, the best known demonstrator in the city, who has now quite perfect arrangements for a class of 300 workers, *and is ready to start each year as early as weather will permit, 30 classes, (150 students,)* so no one need have any fears of not being accommodated. Dr. Chas. H. Thomas, of Covington, has been elected as his Assistant. Dr. Thomas has had abundant experience at Bellevue.

Practitioners who may desire to revive their knowledge of anatomy, or work up any special points in surgery, will have ample opportunity to do so, in the private anatomical rooms. Classes can begin on the first day of September, if they see fit, but are advised to submit to the judgment of the Demonstrator as to time. All communications about places, &c., should be addressed to Dr. Cilley.

#### CLINICAL INSTRUCTION.

*No school can lay any claims to a thorough course of instruction, unless amply provided with such material as will enable its corps of instructors to illustrate clinically their didactic lectures.*

*Students of the Medical College of Ohio, can now enjoy privileges that cannot be equaled in the West, and probably are not to be excelled anywhere. The Good Samaritan Hospital, and the College Dispensary are open only to students of the College. The Cincinnati Hospital, where daily clinics are held, is open alike to all the students of the city.*

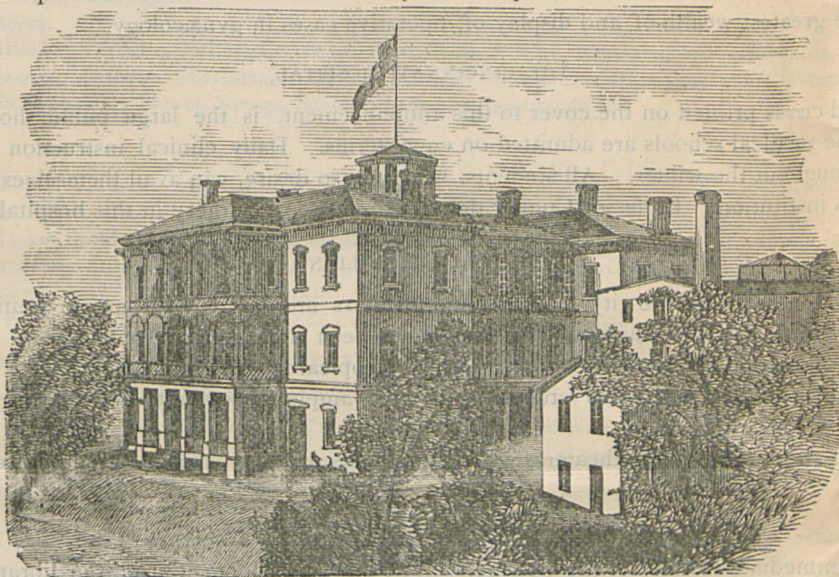

#### THE COLLEGE DISPENSARY,

Which is *free* to all students of the College, is open daily, and clinical lectures are delivered on the cases which present themselves every morning. Seven to eight thousand cases being investigated and treated yearly, consisting of malarial, specific, nervous, pulmonary, gastro-intestinal, hepatic, venereal, genito-urinary, skin, eye and ear diseases, it is obvious that every day, very important clinical material is brought before the class. In order to utilize to the fullest extent, this vast charity, the Faculty have gone to very great expense in fitting up new rooms for the reception and accommodation of patients. The clinics will be conducted in all the various departments at the same hour each morning, and students can pass from room to room, selecting any special course to which they may desire to apply themselves, or giving their attention in turn to each. In

this way students may hear each morning Professor Seely on diseases of the eye and ear, Professor Nickles, and Drs. Cleveland and Drury on medical cases, Professor Reamy on mid-wifery, Professor Palmer on diseases of women, Professor Forchheimer on diseases of children, Prof. Ransohoff and Dr. Walker on surgery, and Prof. Jas. G. Hyndman on diseases of the throat and physical diagnosis. The new clinical rooms—six in number—devoted by the Faculty to this purpose, and well fitted up four years ago, are the most thoroughly appreciated features by the large classes of each session.

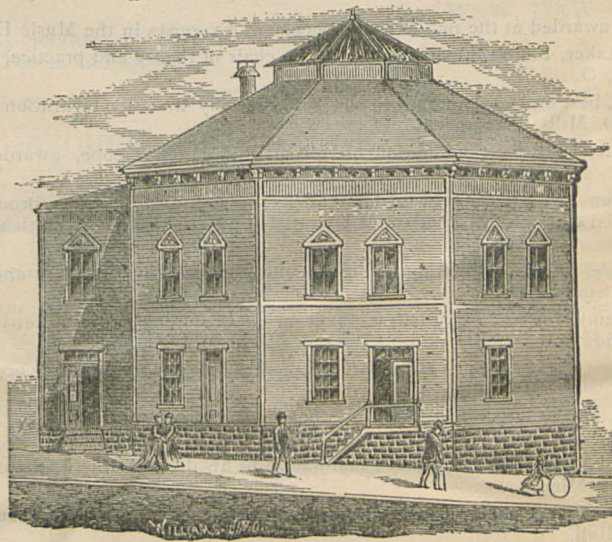

The value of this Dispensary can not be over-estimated; all the material is thoroughly utilized by allowing personal investigation by each student.

Some seven or eight hundred sick children were literally placed in the hands of various subdivisions of the class last session. All of the large number of diseases peculiar to women, were ocularly inspected by the class in sub-divisions. In medicine every student has an opportunity to make physical examinations. Just so we might go on through the other departments. It will be seen that no instruction in a large amphitheatre is at all comparable to the personal contact afforded here, and can never be substituted for it for the vast majority of cases that present themselves in the ordinary calls of practice.

THE GOOD SAMARITAN HOSPITAL.

The clinical instruction in this important Hospital, is conducted exclusively by the Faculty, as follows:  
 Professor DAWSON, *Clinical Surgery*. Professor SEELY, *Clinical Ophthalmology and Otology*. Professor CONNER, *Clinical Surgery*. Professor WHITTAKER, *Clinical Medicine*. Professor REAMY, *Obstetrics and Clinical Gynæcology*. Professor FORCHHEIMER, *Clinical Diseases of Children*. Professor RANSOHOFF, *Skin Diseases*. DR. KEBLER, *Pathology*.

THE NEW CLINICAL AMPHITHEATER.

The Good Samaritan Hospital is under the efficient management of Sister Anthony. It contains about three hundred beds. Besides the sick admitted from the city of Cincinnati, *this hospital receives the sick marines of this port.* Professor Whittaker has as a tributary an out-door department in connection with the hospital, adding materially to its resources. An abundance of clinical material is thus afforded, both in the departments of medicine and surgery. The clinical instruction for a large part of the year is imparted at the bedside. In this way, Professor Whittaker in medicine and Professor Conner in surgery, are enabled to give a truly clinical course of great practical value. The public clinics of Professors Dawson, Seely, Conner, Reamy, Forchheimer and Ransohoff, in the amphitheater, are remarkable for the number and variety of the operative cases presented to the class. Besides the material in the house, Professors select from their large private practices many cases of interest to illustrate their clinical courses.

An important and striking feature in the Obstetrical Department is Delivery in the presence of the entire class.

There is the greatest wealth of and display of, operative cases in gynæcology.

#### THE CINCINNATI HOSPITAL,

Of which a wood-cut is printed on the cover to this announcement, is the large public hospital, to which students of all the medical schools are admitted on equal terms. Daily clinical instruction is given by the hospital staff throughout the winter. All students, who may so desire, can avail themselves of the material furnished by this institution. Professor Conner delivers a course on surgery in this hospital.

#### THE COLLEGE BUILDING

Stands directly in the center of the city. The amphitheaters are large, with ample seating capacity for 500, but to afford more space to each student, they have been arranged for only 400. It contains five rooms for practical anatomical work, chemical and microscopical laboratories, &c.

An inspection will show that every student will have ample opportunity for thorough and practical work.

For securing seats in the amphitheaters, we trust students will pay special attention to the notice on page 11.

#### THE PUBLIC LIBRARY,

Which is in the immediate vicinity of the College, will be open to students during the library hours. This library is well supplied with the most recent text-books, in all departments, and with the principal weekly, monthly and quarterly medical periodicals published in all parts of the world. The student will find here everything in medical literature which he can utilize.

#### PRIZES.

The following prizes were awarded at the public Commencement Exercises in the Music Hall, March 2nd, 1880.

By Professor Jas. T. Whittaker, best oral examination in the chair of theory and practice, a post mortem case, awarded to Dr. Thos. K. Jacobs, Lima, O.

By Professor P. S. Conner, best oral examination in surgical anatomy and demonstration on preserved specimens, gold medal, awarded to Dr. Chas. D. Mills, Pleasantville, O.

By Professor F. Forchheimer, written examination on physiology, a microscope, awarded to Dr. George L. Mathes, St. Paul, Minn.

By Professor W. W. Dawson, two prizes, gold medals—for bandaging, awarded to J. Brooks Hart, Poplar Plains, Ky.; best dissected specimen, awarded to H. H. McClellan, Washington C. H., O.; for best surgical drawing, H. B. Thompson, Hillsboro, O.

By Dr. Jas. G. Hyndman, best oral examination in Physics and Medical Chemistry, a stand of test instruments, awarded to Dr. J. N. W. Crawford, Portsmouth, O.

By Professor Thad. A. Reamy, for best examination paper on final examination in obstetrics, a gold medal, awarded to Dr. H. M. Winans, Muncie, Ind.

By Professor Palmer, for best paper on final examination in gynæcology, a case of gynæcological instruments, awarded to Dr. Luther B. Terrill, of Moberly, Mo.

By Professor W. W. Seely, best oral examination in ophthalmology, a gold medal, awarded to Dr. George L. Mathes, St. Paul, Minn.

By Professor Ransohoff, for best paper on the final examination in his department, (Anatomy), gold medal, awarded to Dr. George L. Mathes, St. Paul, Minn.

The Faculty Prize for the most satisfactory papers in all ten departments of the final examination was awarded to Dr. George L. Mathes, St. Paul, Minn.

HOSPITAL APPOINTMENTS.

The positions of resident physician in the Good Samaritan Hospital were awarded by competitive examination to Brooks F. Beebe, Oskaloosa, Ia., James M. French, Cincinnati, and Milton C. Wilson, Covington, Ky. Those who passed for positions as resident physician at the Cincinnati Hospital were F. W. Harmon, Cincinnati, and A. B. Thrasher, Indiana.

TEXT BOOKS.

The Faculty would recommend one or other of the following text-books in the several departments:

- Surgery*.—Gross, Hamilton, Ashhurst, Holmes, Erichsen, Bryant, Thompson, Gant.
- Theory and Practice*.—Bristowe, Aitken, Flint, Niemeyer.
- Materia Medica and Therapeutics*.—Stille and Maisch's National Dispensatory, Bartholow, Stille, Wood, Farquharson.
- Anatomy*.—Gray, Holden, MacLise's Surgical Anatomy, Bellamy's Surgical Anatomy.
- Chemistry*.—Forchheimer's English Edition of Hoffman and Ullmann, Attfield, Fowne, Roscoe, Neubauer and Vogel.
- Diseases of Eye*.—Wells, Schweigger.
- Ear*.—Burnett, Roosa.
- Physiology*.—Whittaker's Lectures, Dalton, Carpenter, Flint, Küss, Brücke, Hermann, Milne Edwards.
- Obstetrics and Diseases of Children*.—Leishman, Playfair, Byford, Cazeaux, Schroeder, Smith on Children.
- Diseases of Woman*.—Thomas, Barnes, Savage, Schroeder, Peaslee, Spencer Wells.

FEES.

Professors' Ticket .....	\$75 00
Matriculation Ticket.....	5 00
Dissecting Ticket, (sold by the Demonstrator, Dr. Cilley) .....	5 00
Practical Chemistry.....	5 00
Hospital Tickets, each.....	5 00
Graduation Fee.....	25 00

**MATRICULATION FEE AND PROFESSOR'S FEES MUST BE PAID BY OCT. 10TH.** *In order to select seats for the winter, students should come prepared to pay both Matriculation and Professor's Fees on entering, as no seat will be marked off till the course is paid for. The plat showing the number and location of seats will be ready on the morning of Sept. 1st, in the Secretary's office. The choice of seats may be had in the order in which students receive their receipts for the General Ticket. No seat will be sold till the morning of September 1st.*

**BOARDING, ETC.**—Cincinnati presents advantages in this regard over many other cities of even larger size. The chief commercial mart of the great cattle-growing and grain-producing regions of the West, our city can afford to furnish her own tables at much lower rates than cities compelled to draw supplies from greater distances. Good boarding ranges from \$3.00 to \$6.00 per week—comfortable rooms from \$5.00 to \$10.00 per month. The economical student, by furnishing his own room, and providing for himself, may reduce these expenditures nearly one-half.

The Janitor, in the College building, on Sixth St., between Vine and Race, will furnish students with a list of boarding houses, and aid them in securing comfortable quarters.

For additional information, address,

W. W. SEELY, M. D., Secretary.  
S. E. Cor. Fourth and Broadway.

W. W. DAWSON, M. D., Dean.

REQUIREMENTS FOR GRADUATION.

READ THE FOLLOWING ARTICLES OF CONFEDERATION OF THE AMERICAN COLLEGE ASSOCIATION,

*Subscribed and conformed to by all the Colleges of the Association:*

**ARTICLE I.—OF THE FACULTY.**—The medical members of the Faculty must be *regular* graduates or licentiates and practitioners of medicine, in good standing, using the word "regular" in the sense commonly understood in the medical profession.

**ARTICLE II.—OF TUITION.**—**SECTION 1.**—The scheme of Tuition shall provide for a yearly systematic course of instruction covering the general topics of Anatomy, including dissections, Physiology, Chemistry, *Materia Medica* and Therapeutics, Obstetrics, Surgery, Pathology and Practice of Medicine. The collegiate session, wherein this course is given, shall be understood as the "regular" session.

**SECTION 2.**—Said regular session shall not be less than twenty weeks in duration. This section to go in force at and after the session of 1879-80.

Document from the collections of the AAMC Not to be reproduced without permission

SECTION 3. Not more than one regular session, counting the regular session as one of the two courses of instruction required for graduation, shall be held in the same year.

#### ARTICLE III. REQUIREMENTS FOR GRADUATION.

No person, whether a graduate in medicine or not, shall be given a diploma of "Doctor of Medicine," who shall not have fulfilled the following requirements, *except* as hereinafter provided for in Article IV. —

1. He must produce satisfactory evidence of good moral character, and of having attained the age of twenty-one years.
2. He must file a satisfactory certificate of having studied medicine for at least three years under a *regular* graduate, or licentiate and practitioner of medicine, in good standing, using the word "regular" in the sense commonly understood in the medical profession. No candidate shall be eligible for final examination for graduation, unless his term of three years study shall have been completed, or shall expire at a date not later than three months after the close of the final examinations; this clause to take effect at and after the session of 1879-80.
3. He must file the proper official evidence that, during the above mentioned three years, he has matriculated at some affiliated college or colleges, for two regular sessions, and in the course of the same (except as provided in 4) has attended two full courses of instruction on the seven topics mentioned in Article II. But the *latter*, at least, of the two full courses must have been attended at the college issuing the diploma. No two consecutive courses of instruction shall be held as satisfying the above requirements unless the time between the beginning of the first course and the end of the second is greater than fifteen months.
4. In case a college shall adopt a systematic graduated scheme of tuition, attendance on the whole of the same shall be equivalent to the requirements mentioned in 3, *provided* such scheme includes instruction in the seven topics mentioned in Article II., and requires attendance at at least two yearly regular Collegiate Sessions of not less than twenty weeks' duration each.
5. The candidate must have passed a personal examination before the Faculty on all seven of the branches of medicine mentioned in Article II.
6. He must have paid in full all College dues, including the graduation fee.

#### ARTICLE IV. OF HONORARY DEGREES.

An honorary degree of "Doctor in Medicine" may be granted in numbers not exceeding one yearly, to distinguished physicians or scientific men of over forty years of age. But in such case the diploma shall bear across its face the word "Honorary," in conspicuous characters, and the same word shall always be appended to the name of the recipient in all lists of graduates.

#### ARTICLE V. OF FEES.

SECTION 1. All fees shall be paid in lawful money, and no promissory notes or promises to pay shall be accepted in lieu of cash for payment of fees.

SEC. 2. No ticket or other certificate of attendance upon college exercises, shall be issued to any student until the dues for the same shall have been fully paid.

SEC. 3. The established fees for the exercises of the regular session, except the matriculation fee, graduation fee, fee for dissections, may be reduced not more than one-half to graduates of other affiliated colleges of less than three years' standing, and to under-graduates of the same who have already attended two full courses of the instruction of the regular session.

SEC. 4. The same fees may be remitted altogether to a college's own alumni, to graduates of other affiliated colleges of three years' standing—the three years dating from the time of graduation and ending at the close of the regular session for which the tickets are given—to under-graduates who have already attended two full courses of the instruction of the regular session, the latter of which, at least, shall have been in the college making the remission, and to theological students, when not candidates for a diploma.

SEC. 5. The same fees may be reduced or remitted to deserving indigent students, to a number not exceeding five per cent. of the number of matriculants at the previous regular session of the college.

SEC. 6. Under no circumstances whatever, other than the above, shall the Faculties, or any members of the same, grant, *upon their own authority*, any remissions or reductions of established fees. And it is distinctly understood and agreed that the Faculties will discountenance and oppose the authorizing by governing Boards of the admission of individual students upon other than the regularly established charges for their grade.

SEC. 7. Remission or reduction of fees for other exercises than those of the regular session, return to a student of any moneys after payment of fees, or an appropriation of funds of the college for payment of any student's fees, or part thereof, shall be deemed violation of the provisions of this article in regard to remission or reduction of fees.

#### ARTICLE VI. OF RECOGNITION OF OTHER COLLEGES.

No college shall admit to the privileges accorded in Articles III and V the students or graduates of any college which, during any period of the student's or graduate's pupilage shall have been excluded from the list of affiliated colleges recognized by the Association.

The Constitution, By-Laws, and Articles of Confederation were signed by the representatives of the following colleges:

*Resolved*, That each confederated college shall publish in its annual circular and catalogue the names of all confederated and affiliated colleges, beginning with their announcements for 1878-79.

# MEDICAL COLLEGE OF OHIO.

## FIFTY-NINTH ANNUAL COMMENCEMENT.

The fifty-ninth regular annual commencement exercises were held in Music Hall, on the evening of March 2d. Almost every available seat in the vast hall was occupied. After the overture on the grand Organ by Prof. Whiting, the Dean, Prof. Dawson, announced that the Hon. Flamen Ball, President of the Board of Trustees, would confer the degree of Doctor of Medicine upon the largest class that had ever graduated from the college—121. The entire number of matriculants was 326.

\*Resident Physicians Cincinnati Hospital.

Total.....121

The annual meeting of the Alumni Association was held in the lower amphitheater of the College, Thursday, March 2d, at 2 p. m. Dr. B. S. Lawson, of Cincinnati, was called to the chair and elected President for the coming year; the following Vice-Presidents were elected:

Drs. J. L. Vattier, class of 1830; W. W. Caldwell, 1840; W. B. McAvoy, 1840; C. C. Muscroft, 1843; T. J. Mullen, 1844; A. E. Heighway, 1845; O. G. Potts, 1847; A. T. Keyt, 1848; W. W. Dawson, 1850; J. T. Wise, 1850. Dr. C. S. Muscroft was elected Secretary. Dr. Drury was elected Corresponding Secretary. Drs. Hyndman, Miller and Vogel were appointed as a permanent Obituary Committee, and were instructed to draft resolutions concerning the death of Dr. Jas. Daily. Dr. Miller read a short notice of the death of Dr. John Hughes, of Hamilton County, a man of the highest medical standing.

The following Executive Committee was appointed:

J. G. Hyndman, E. J. Tichenor, C. B. Finch, J. H. Brown,\* F. H. Hayes, D. H. Hinckley, Gustave Zinke, T. J. Mullen, A. E. Heighway, D. H. James.

The Treasurer's report was accepted as read.

Dr. J. H. Buckner, of Cincinnati, the orator of the day, delivered an excellent address on "Medical Genius."
