ANNUAL CIRCULAR.

In entering upon our Fifteenth year the Faculty feels, more than ever before, certain of the continued and increasing usefulness of this Department, and assures the Alumni and all friends of medical culture that its aim will be to leave nothing undone which can facilitate a thorough course of instruction upon each branch here taught.

The senior members of the Faculty are already so well known by their professional brethren of the great Northwest, that the assurance that each is fully committed and devoted to the teaching of his chair will, they conceive, be sufficient guarantee of their successful working, and to their number have been added three gentlemen, who having served as Lecturers upon the several subjects of "Diseases of the Mind," "Hygiene and Dermatology," and "Diseases of the Eye, Ear and Throat" during the past session, were found to be men worthy of preferment for these several positions.

It will be the aim of this Department to afford the best possible opportunities for the prosecution of each branch of study, and each chair will be supplied with all needed apparatuses, appliances, models, charts, etc., and especial attention will be given to *clinical* instructions.

The *St. Vincent's Hospital*, under the care of Dr. Henry E. Jones and Professor Rex; the *Good Samaritan Hospital*, under Professors Saylor and Wilson; the *Multnomah County Hospital*, under Professor Watkins and the *Oregon Insane Asylum*, to which Professor Josephi is attached, will each con-

tribute largely and *clinics* will be held regularly every Wednesday and Saturday throughout the session at the *College Dispensary*, and at one or more of the above named institutions, for which no extra charge is made to the class.

It will be the aim of the surgeons in charge of the St. Vincent's and Good Samaritan Hospitals to bring every possible surgical operation, performed by them in these institutions, before the class, thus making these privileges more valuable than they have ever heretofore been.

The opportunities for the study of *Practical Anatomy* are ample—the supply of material fully equaling the demand, and this branch of instruction being under the immediate supervision of the Professor and Demonstrator of Anatomy, practical demonstrations and daily instructions in dissection will be given. Surgical anatomy will be well illustrated by dissections.

TEXT BOOKS.

Medical books can be obtained in this city at catalogue prices; and it is recommended that students supply themselves with at least one text book upon each leading chair. The following works are especially recommended:

ANATOMY: Gray, Wilson, Maclise's Surgical Anatomy.

PHYSIOLOGY: Dalton, Carpenter, Flint.

MATERIA MEDICA: Bartholow, Wood, U. S. Dispensatory.

MIND: Hammond, Maudsley, Bucknell and Tuke.

MEDICAL JURISPRUDENCE: Beck, Wharton, Taylor.

CHEMISTRY: Youmans, Fownes, etc.

OBSTETRICS: Leishman, Playfair, Bedford, Meadows, Hodge.

WOMEN AND CHILDREN: Thomas, Barnes, Churchill, Meigs & Pepper.

PRACTICE OF MEDICINE: Flint, Watson, Aitken.

SURGERY: Gross, Erichsen, Hamilton's Surgery and Dislocations and Fractures.

OPHTHALMOLOGY AND AURAL DISEASES: Stellwag, Wells, Carter, Trolsch.

HYGIENE: Parke's, Bowditch.

DERMATOLOGY DUHRING: Wilson, Fox.

REQUIREMENTS FOR GRADUATION.

I. The candidate for the Degree of M. D. must be of good moral character, and at least twenty-one years of age. He must have attended at least two full sessions of lectures, one of which shall have been in this College; and must exhibit his tickets, or other adequate evidence of attendance, to the Dean of the Faculty.

He must have studied medicine for not less than three years, and have attended at least one course of Practical Anatomy in the dissecting room. He must present to the Dean of the Faculty a Thesis of his own composition, correctly written and in his own handwriting, on some medical subject; and exhibit to the Faculty, at his examination, satisfactory evidence of his professional attainments.

II. Students who have attended one complete course in a respectable Medical School, where attendance on two complete courses is necessary to a degree, and where the same branches are taught as in this, are permitted to become candidates by an attendance here on one full course; the rules of graduation being in other respects observed. They are also exempted from the payment of fees upon attending a second term.

III. Students who have attended two full courses on Anatomy, Chemistry, Materia Medica or Physiology may be examined on any of these branches, at the end of their second course. They are thus enabled to devote a third course to the didactic lectures on the remaining branches, and to clinical study. The Faculty recommend to students the importance, when at all practicable, of attending *three* courses of lectures before presenting themselves as candidates for graduation.

IV. The degree will not be conferred upon any candidate who absents himself from the public commencement, without the special permission of the Faculty.

All matriculates, in becoming such, are understood as pledging themselves to a life-long fidelity to the code of ethics of the American Medical Association.

Board and lodging are as cheap in Portland as in any other city in the Union.

Students, on arriving in the city, are requested to call at once upon the Dean, who will furnish all necessary information, and otherwise provide for their accommodation.

Letters addressed to the Dean will receive prompt attention.

O. P. S. PLUMMER, M .D.,

Dean of the Medical Faculty,

PORTLAND, OREGON.

ARTICLES OF CONFEDERATION
OF THE
ASSOCIATION OF AMERICAN MEDICAL COLLEGES.

ARTICLE I. OF THE FACULTY.

The medical members of the Faculty must be *regular* graduates or licentiates and practitioners of medicine, in good standing, using the word "regular" in the sense commonly understood in the medical profession.

ARTICLE II. OF TUITION.

SECTION 1. The scheme of tuition shall provide for a yearly systematic course of instruction covering the general topics of Anatomy, including dissections, Physiology, Chemistry, Materia Medica and Therapeutics, Obstetrics, Surgery, Pathology and Practice of Medicine. The collegiate session, wherein the course is given, shall be understood as the "regular" session.

SEC. 2. Said regular session shall be not less than twenty weeks in duration. This section to go in force at and after the session of 1879-80.

SEC. 3. Not more than one regular session, counting the regular session as one of the three courses of instruction required for graduation, shall be held in the same year.

ARTICLE III. REQUIREMENTS FOR GRADUATION.

No person, whether a graduate in medicine or not, shall be given a diploma of "Doctor of Medicine," who shall not have fulfilled the following requirements, *except* as hereinafter provided for in Article IV. :—

1. He must produce satisfactory evidence of good moral character, and of having attained the age of twenty-one years.

2. He must file a satisfactory certificate of having studied medicine at least three years under a *regular* graduate, or licentiate and practitioner of medicine, in good standing, using the word "regular" in the sense commonly understood in the medical profession. No candidate shall be eligible for final examination for graduation, unless his term of three year's study shall have been completed, or shall expire at a date not later than three months after the close of the final examinations; this clause to take effect at and after the session of 1879-80.

3. He must file the proper official evidence that, during the above mentioned three years he has matriculated at some affiliated college or colleges, for three regular sessions, and in the course of the same (except as provided in 4) has attended three full courses of instruction on the seven topics mentioned in Article II. But the *latter*, at least, of the three full courses must have been attended at the college issuing the diploma. No two consecutive courses of instruction shall be held as satisfying the above requirements unless the time between the beginning of the first course and the end of the second is greater than fifteen months.

4. In case a college shall adopt a systematic graduated scheme of tuition, attendance on the whole of the same shall be equivalent to the requirements mentioned in 3, *provided* such scheme includes instruction in the seven topics mentioned in Article II, and requires attendance at, at least, three regular Collegiate Sessions of not less than twenty weeks' duration each.

5. The candidate must have passed a personal examination before the Faculty on all seven of the branches of medicine mentioned in Article II.

6. He must have paid in full all college dues, including the graduation fee.

7. Attendance upon three sessions will be required after that of 1882-3.

ARTICLE IV. OF HONORARY MEMEBERS.

An honorary degree of "Doctor of Medicine" may be granted in numbers not exceeding one yearly, to distinguished physicians or scientific men of over forty years of age. But in such case the diploma shall bear across its face the word "Honorary," in conspicuous characters; and the same word shall always be appended to the name of the recipient in all lists of graduates.

ARTICLE V. OF FEES.

SECTION 1. All fees shall be paid in lawful money, and no promissory notes or promises shall be accepted in lieu of cash for payment of fees.

SEC. 2. No ticket, or other certificate of attendance upon collegiate exercises, shall be issued to any student until the dues for the same shall have been fully paid.

SEC. 3. The established fees for the exercises of the regular session, except the matriculation fee, graduation fee, and fee for dissections, may be reduced not more than one-half to graduates of other affiliated colleges of less than three years' standing, and to undergraduates of the same who have already attended two full courses of the instruction of the regular session.

SEC. 4. The same fees may be remitted altogether to a college's own alumni, to graduates of other affiliated colleges of three years' standing—the three years dating from the time of graduation, and ending at the close of the regular session for which the tickets are given—to undergraduates who have already attended two full courses of the instruction of the

regular session, the latter of which, at least, shall have been in the college making the remission, and to theological students, when not candidates for a diploma.

SEC. 5. The same fees may be reduced or remitted to deserving indigent students, to a number not exceeding five per cent. of the number of matriculates at the previous regular session of the college.

SEC. 6. Under no circumstances whatever, other than the above, shall the Faculties, or any members of the same, grant, *upon their own authority*, any remissions or reductions of established fees. And it is distinctly understood and agreed that the Faculties will discountenance and oppose the authorizing by governing Boards of the admission of individual students upon other than the regularly established charges for their grade.

SEC. 7. Remission or reduction of fees for other exercises than those of the regular session, return to a student of any moneys after payment of fees, or an appropriation of the funds of the college for the payment of any student's fees, or part thereof, shall be deemed violation of the provisions of this article in regard to remission or reduction of fees.

ARTICLE VI. OF RECOGNITION OF OTHER COLLEGES.

No college shall admit to the privileges accorded in Articles III. and V. the students or graduates of any college which, during any period of the student's or graduate's pupilage, shall have been excluded from the list of affiliated colleges recognized by the Association.

ARTICLE VII. ADVERTISEMENTS.

No college shall advertise in any other than a strictly medical publication the names of its professors with their respective chairs.
