OPPS Proposed Rule

- Published in *Federal Register* on July 19, 2013, at page 43534.
- Available at: <http://www.gpo.gov/fdsys/pkg/FR-2013-07-19/pdf/2013-16555.pdf>
- **Comments due Friday, Sept. 6 at 5pm**

Comment Letter Themes

- Data Errors
- Impossibility of teasing apart impacts of various proposals
- Recommend waiting and re-proposing in future years
- Administrative Procedure Act concerns

Data Discussion

Attempt at Comic Relief

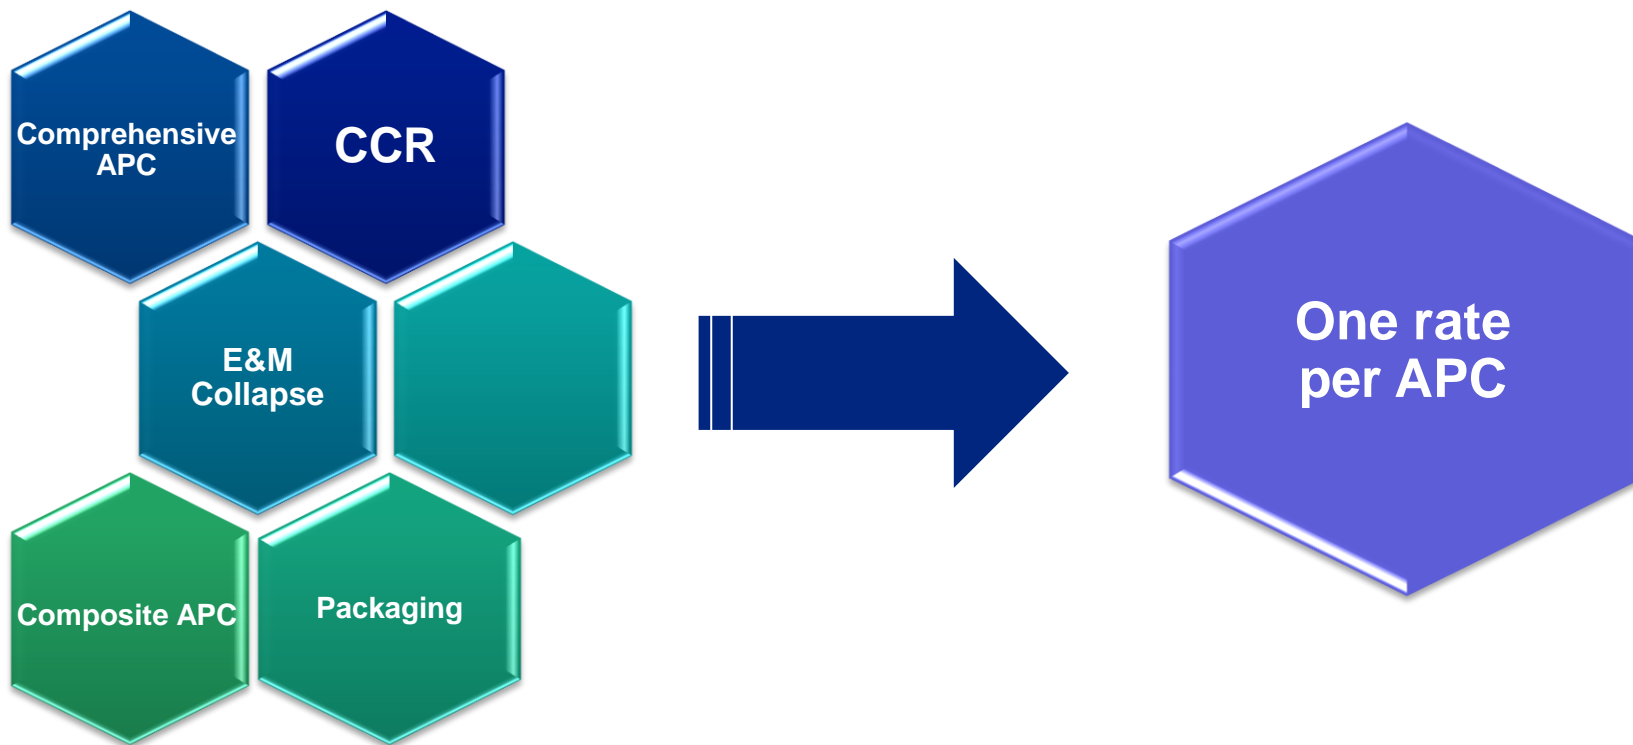

Brain before release of
OPPS regulations

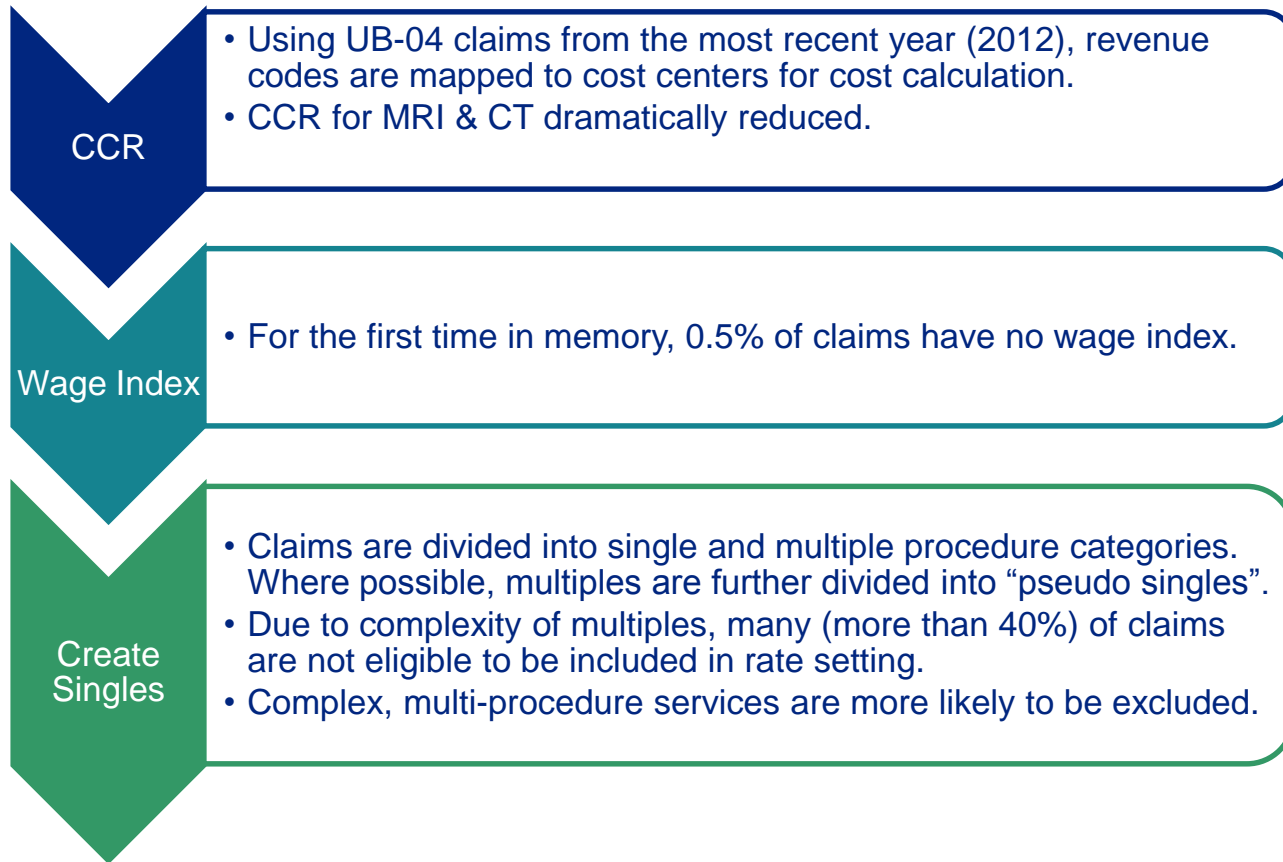

What's left after trying
to understand it all

Many Interacting Proposals with Planned Simultaneous Implementation

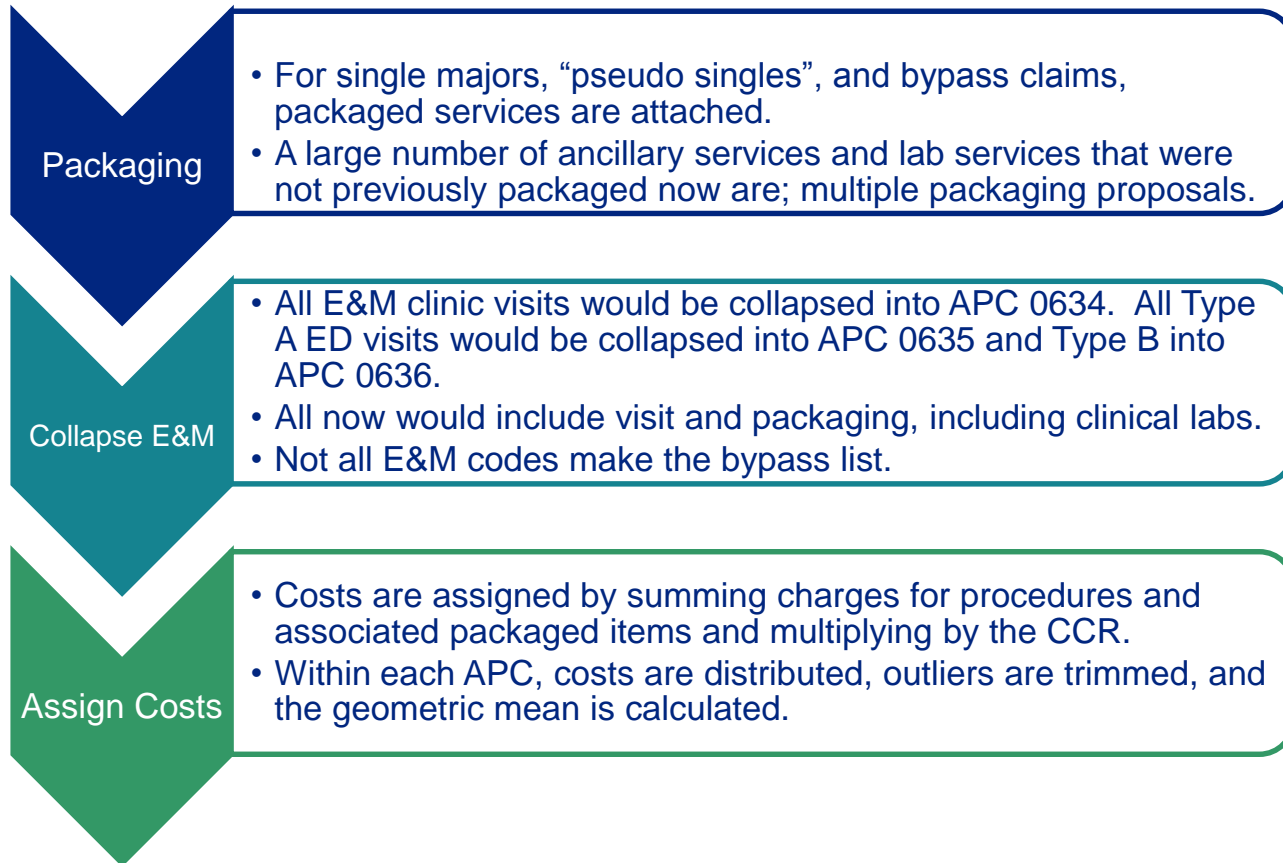

Steps in Rate Setting: How Proposals & Identified Errors Impact Rate Setting*

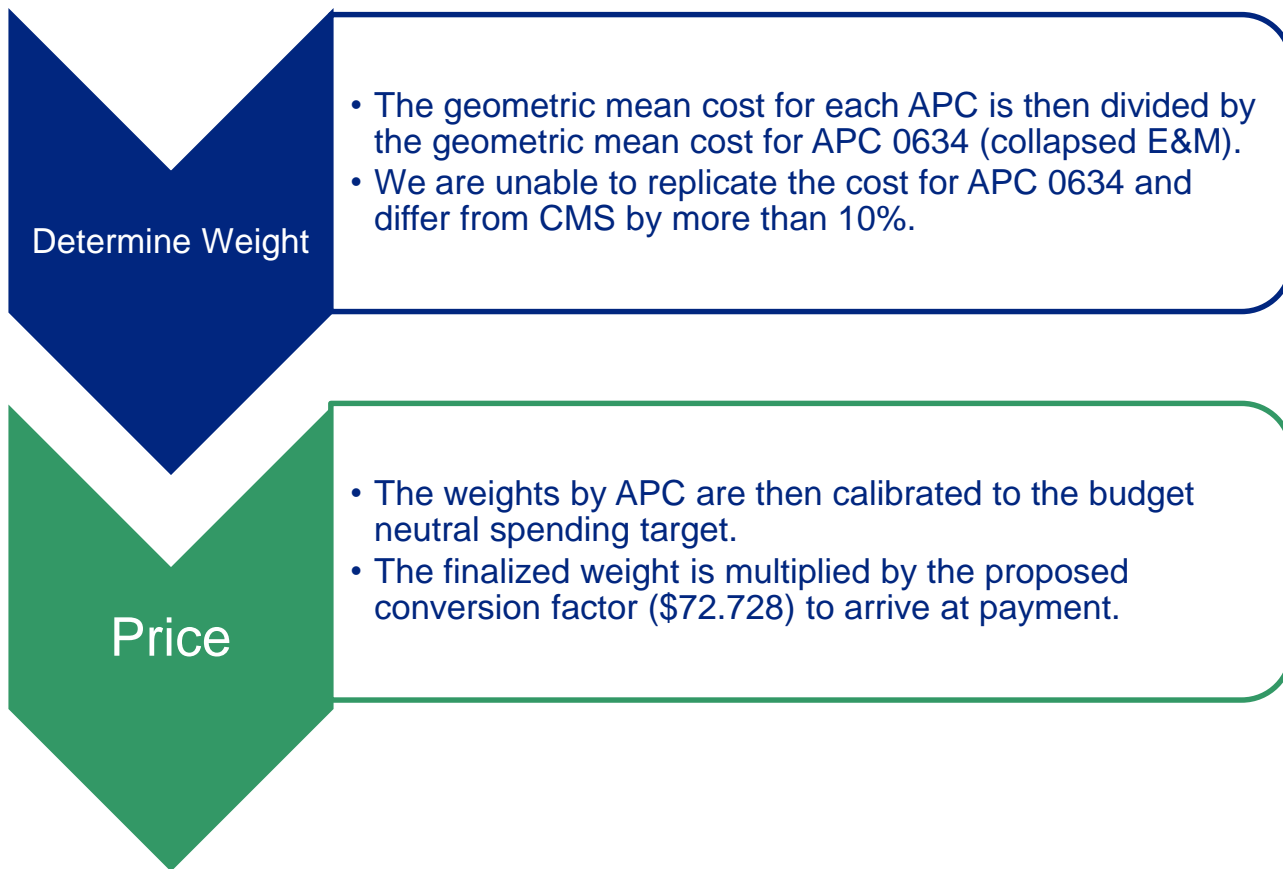

*Not all steps are presented in the order in which they occur as order is not always discernable from proposed rule.

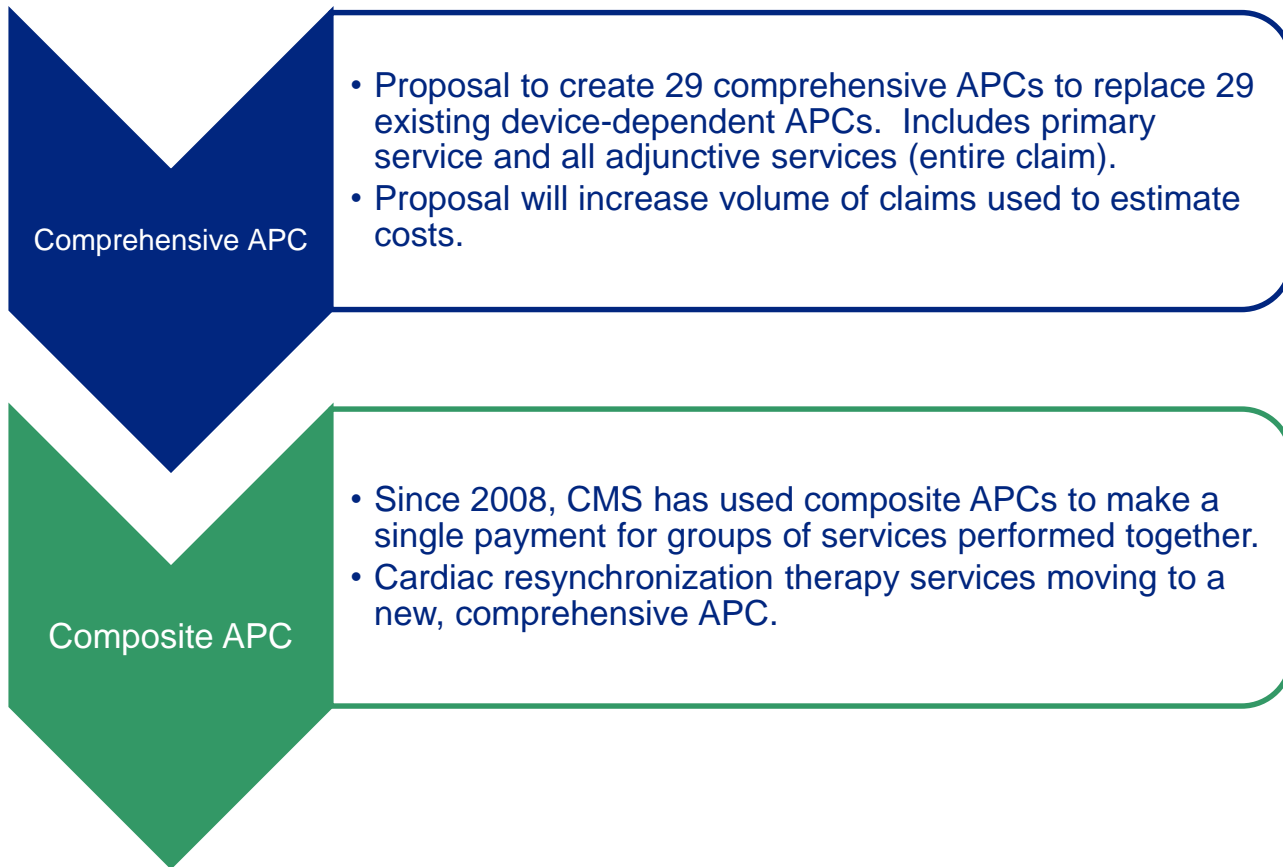

Steps in Rate Setting: How Proposals & Identified Errors Impact Rate Setting

Steps in Rate Setting: How Proposals & Identified Errors Impact Rate Setting

Steps in Rate Setting: How Proposals & Identified Errors Impact Rate Setting

Practical Examples

**Type A ED Visit Codes with Packaging & Costs
(APC 0635: Weight = 2.9274, Payment Rate = \$212.90)**

| HCPCS | Single Claims* (n) | Claims w/Packaging (n) | % with Packaging | Average Packaging Cost |
|--------------|-------------------------------|---------------------------------------|-----------------------------|---------------------------------------|
| 99281 | 269,444 | 69,612 | 25.8% | \$15.22 |
| 99282 | 849,892 | 373,368 | 43.9% | \$30.17 |
| 99283 | 2,601,017 | 1,892,004 | 72.7% | \$74.34 |
| 99284 | 1,863,203 | 1,631,595 | 87.6% | \$151.48 |
| 99285 | 1,039,350 | 976,417 | 96.9% | \$342.18 |

*ED singles and “pseudo singles” from Moran replication to identify whether these codes have packaging codes.

Practical Examples

Type A ED Visit Codes “Singles vs. Totals” Used in Rate Setting by HCPCS

| HCPCS | Single Frequency | % of All Singles | Total Frequency | % of All Total | % Used in Rate Setting |
|-------|------------------|------------------|-----------------|----------------|------------------------|
| 99281 | 267,680 | 4.0% | 310,887 | 2.4% | 86.1% |
| 99282 | 848,900 | 12.5% | 1,144,129 | 8.7% | 74.2% |
| 99283 | 2,615,562 | 38.6% | 4,145,332 | 31.4% | 63.1% |
| 99284 | 1,949,746 | 28.8% | 4,639,087 | 35.2% | 42.0% |
| 99285 | 1,091,688 | 16.1% | 2,951,145 | 22.4% | 37.0% |
| TOTAL | 6,773,576 | 100.0% | 13,190,580 | 100.0% | 51.4% |

Data Source: CMS Rate Setting tables provided with proposed rule.

Practical Examples

Type A ED Visit Codes: Proportion of Claims with ED Visit as Only Major Procedure on Claim

| HCPCS | Claims* (n) | Claims w/ED as Only Major Procedure (n) | % with ED as Only Major Procedure |
|-------|----------------|---|--|
| 99281 | 310,433 | 236,649 | 76.2% |
| 99282 | 1,142,881 | 630,007 | 55.1% |
| 99283 | 4,140,210 | 1,177,833 | 28.4% |
| 99284 | 4,633,873 | 336,063 | 7.3% |
| 99285 | 1,947,243 | 113,519 | 4.0% |

*Moran used claims before rate setting to identify whether there are no other major procedures in the same claim.

Summary

- Very difficult to peel out the impact of each new proposed policy; too much interaction.
- Attempts to recreate CMS methodology further confounded by likely errors in support materials provided by CMS.
- OPSS has always been biased by dropped claims, but new collapsing policy adversely affects institutions with a preponderance of high intensity services.

And Now Think Zen Thoughts

Follow Up from Member Survey

Questions Posed to Members Through Reimbursement List

- Information collection on off-campus provider-based departments
 - Members split on preferring claims-based vs. cost report-based data collection
- Policy premise of collapsing E/M codes
 - Members split, but majority opposed concept
- Reporting of no cost / full credit and partial credit devices
 - Members expressed various concerns with overall policy
