The Honorable Tom Cole Chair Subcommittee on Labor-HHS-Education Appropriations Committee United States House of Representatives Washington, D.C. 20515

The Honorable Roy Blunt Chair Subcommittee on Labor-HHS-Education Appropriations Committee United States Senate Washington, D.C. 20510 The Honorable Rosa DeLauro Ranking Member Subcommittee on Labor-HHS-Education Appropriations Committee United States House of Representatives Washington, D.C. 20515

The Honorable Patty Murray Ranking Member Subcommittee on Labor-HHS-Education Appropriations Committee United States Senate Washington, D.C. 20510

Dear Chairmen Cole and Blunt and Ranking Members DeLauro and Murray:

The 46 undersigned members of the Health Professions and Nursing Education Coalition (HPNEC) write to recommend \$524 million for the Health Resources and Services Administration (HRSA)'s Title VII health professions and Title VIII nursing workforce development programs in the fiscal year (FY) 2017 Labor-HHS-Education spending bill. Additionally, because HRSA has been administering the Behavioral Health Workforce Education and Training (BHWET) Program, we also support the President's FY 2017 budget proposal of shifting funds previously appropriated to the Substance Abuse and Mental Health Services Administration to HRSA. HPNEC is an alliance of national organizations representing schools, programs, health professionals, and students dedicated to ensuring the health care workforce is trained to meet the needs of our diverse population.

Title VII and Title VIII are the only federally-funded programs that seek to improve the supply, distribution, and diversity of the health professions workforce, with a focus on primary care and interdisciplinary training. These programs help shape the workforce in targeted ways, such as promoting interprofessional, team-based care; promoting service in underserved areas; and filling other gaps in the health care workforce.

Moreover, we have a nation that is growing and becoming increasingly diverse. At a time when millions of Americans are accessing health care for the first time, it is crucial that we enhance the federal commitment to the programs that equip the next generation of health professionals to keep up with the increasing health care challenges of a changing population.

While HPNEC recognizes the challenges you face in the constrained budget environment, we urge you to ensure the next generation of health professionals is equipped to address the nation's health care

complexities by providing \$524 million for Titles VII and VIII in FY 2017, and providing BHWET funding directly to HRSA.

## Sincerely,
