Group on Information Resources
Education Technology Working Group
(**3/23/2010)**

The Educational Technology working group is responsible for informing GIR members and the AAMC on education technology issues, trends and related infrastructure as well as interfacing with AAMC groups (GSA, GIP, GEA) and other external groups (Educause, APSE, etc.). The working group may also be tasked with responding to emerging education technology issues. The working group will be comprised of GIR members who have an interest in and knowledge of education technology infrastructure. One member should come from the library community while the rest are drawn from the members at large.

A member of the GIR Steering Committee will serve as liaison to the working group. The working group will meet at least quarterly by conference call, with face-to-face meetings at the GIR spring meeting and the AAMC Annual Meeting in November.

The Working Group will:

- Collaborate with other AAMC professional groups to create joint annual meeting sessions;

- Present at least once a year to the Steering Committee and GIR membership on trends and issues in education technology;

- Collaborate with Professional Development Committee on education Leadership Conversations;

- Collaborate with the Data and Benchmarking Committee on education technology questions for annual survey.
