

Collaborative Grant or Scholars Grant: Which one is right for you?

Constituents in the NEGEA are eligible to apply for both Collaborative Research Grants, sponsored by the Medical Education Scholarship, Research, and Evaluation (MESRE) section, or NEGEA Scholars grants; but how do you decide? While complete information about each grant is available from their Calls for Proposals, a snapshot of key differences appears below.

	Collaborative Research Grant	Scholars Grant
Recipient	PI is part of a team, preferably inter-institutional	PI is Individual grant recipient
Type of Funded project	Research, including program evaluation, prospective research, etc.	Research or professional development/curriculum design
