

CDC Quarantine & Isolation Criteria

Close contact (<6 feet for >15 minutes) with someone who has tested positive for COVID-19

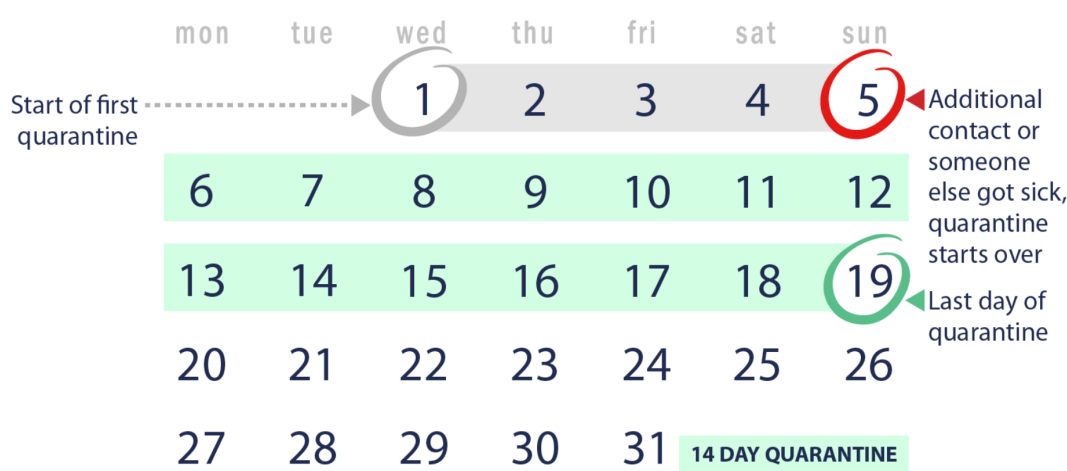

Yes

Quarantine for 14 days after last exposure regardless of test result:

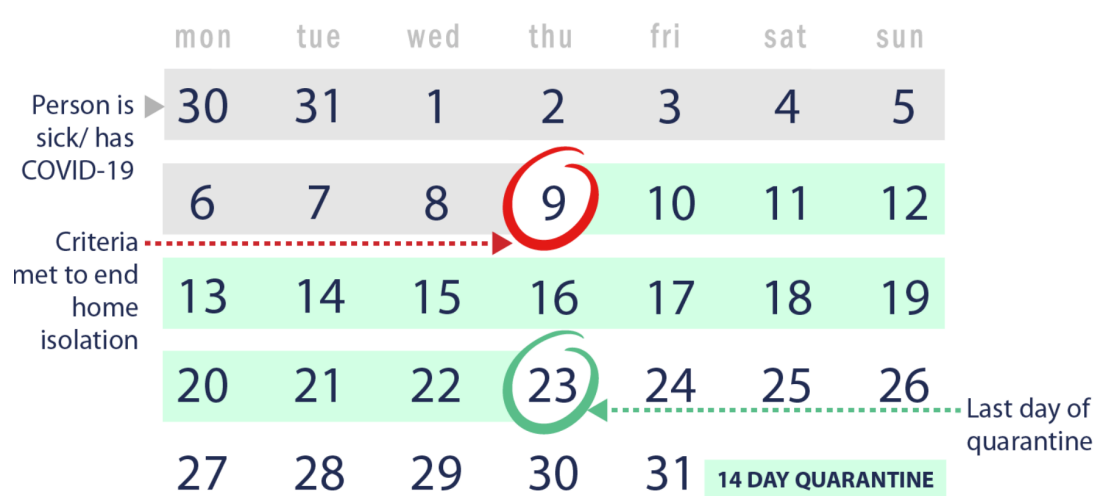

If you have had close contact with someone with COVID-19 and will have no further close contact

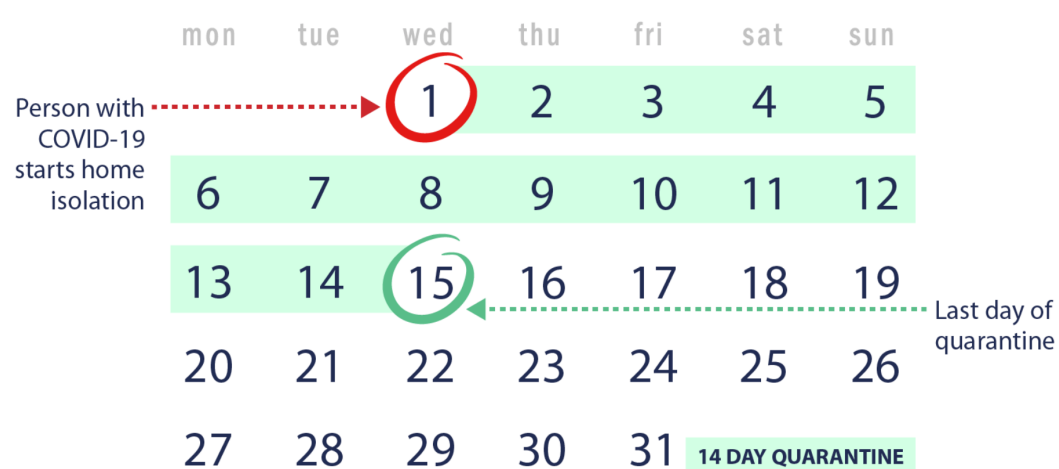

If you have multiple days of close contact

If you live with someone who has COVID-19 and cannot avoid close contact

If you live with someone who has COVID-19 and can avoid close contact

No

Positive test

Yes

No

Symptomatic?

Isolation not required

Yes

No

Isolate for 10 days since symptoms first appeared.

You may discontinue isolation if you meet the following 3 criteria:

- It has been at least 10 days since symptoms appeared
- It has been at least 24 hours with no fever without medication
- Symptoms have improved

If no symptoms develop, isolate for 10 days beginning the day you were tested
