

Table A-12: Applicants, First-Time Applicants, Acceptees, and Matriculants to U.S. MD-Granting Medical Schools by Race/Ethnicity (Alone), 2019-2020 through 2022-2023

The table below displays the self-identified racial and ethnic characteristics of women and men applicants to U.S. medical schools from 2019-2020 through 2022-2023. The "Multiple Race/Ethnicity" category includes those who selected more than one race/ethnicity response. Please email datarequest@aamc.org if you need further assistance or have additional inquiries.

¹The counts for "Black or African American," "Hispanic, Latino, or of Spanish Origin," and "Asian" categories include those who indicated these main categories regardless of whether they also selected a sub-category.

Notes: The "Non-U.S. Citizen and Non-Permanent Resident" category may include students with unknown citizenship. Applicants, acceptees, and matriculants who declined to report sex are only reflected in the "All" section. Therefore, the Subtotal counts for women and men may not sum to the Total. In 2016, the methodology for calculating first-time applicants was updated from any applicant who had not applied in the past nine years to any applicant who had not applied since 1973, the earliest year for which there is AMCAS data. The counts for all years in this table reflect the new methodology. Due to the updated methodology, tables published prior to 2016 may display different first-time applicant counts.

Each academic year includes applicants and matriculants that applied to enter medical school in the fall of the given year. For example, academic year 2022-2023 represents the applicants and matriculants that applied to enter medical school during the 2022 application cycle.
