

00:36:37: WGSA Business Meeting will be held via Zoom on Thursday, November 3, 2022, from 10am-11am PST

00:37:07: For WGSA members who are planning to attend Learn Serve Lead in Nashville next month, please also join us on Friday, November 11th from 9:45am-11:15am in Room 105AB

00:37:31: Central Region Biz Mtg: Fri, Oct. 21 at 11 central. Central region will also still use our time at the AAMC LSL for meeting together to connect in person for those attending.

00:37:56: The 2023 Western Regional Conference Planning Committee is excited to announce the 2023 conference in Honolulu, HI, April 14 - 17, 2023. The Call for Proposals is now open.

00:39:13: UTRGV

00:39:13: We have a site visit coming up in March 2023

00:39:14: Yes, we had our visit last sept

00:39:16: we are preparing for upcoming

00:39:16: Site visit in June 2023!

00:39:20: Geisel has a mock visit coming up.

00:39:21: Stanford had our LCME visit in January 2022

00:39:21: Preparing

00:39:30: We are preparing for an upcoming Spring 2023 visit.

00:39:33: Preparing

00:39:34: Einstein has a visit in January

00:39:36: U of Rochester preparing for LCME accreditation in 2023

00:39:40: NYU Long Island SOM scheduled for end of October

00:39:48: Preparing at the Jacobs School of Med, U@Buffalo

00:40:18: I said yes, even though we were mostly focused on the ones here!

00:42:02: DOES NOT APPLY TO US

00:45:33: yes! YES!

00:45:40: No orientation.

00:45:41: Yes at Univ. of KY

00:45:41: yes!

00:45:51: We send a welcome email with links to handbooks, etc...

00:45:58: Not an orientation, but have a lot housed in the syllabi.

00:46:24: we have a registrar's office orientation and the clinical dept has a separate orientation

00:46:34: It's in VSLO

00:46:40: We collect emergency contact

00:47:21: Yes just added it them to the welcome with the process and a contact person

00:47:44: We give a handout on mistreatment

00:48:15: they have access to the same mistreatment report that our students do

00:48:48: Yes, we have added mistreatment information to our acceptance notification information

00:50:06: We do not

00:50:07: not required

00:50:08: Nope!

00:50:08: yes we do

00:50:09: we do not require

00:50:12: Yes

00:50:12: yes, we use the AAMC uniform agreement for VS coming to BCM

00:50:14: Not at all. We hate dealing with them

00:50:14: yes, we do

00:50:14: Not required

00:50:15: We do not for VS. We will sign it if another school requires it.

00:50:15: Not at Emory

00:50:16: We do not at COM-T

00:50:16: No, we use the AAMC VSLO

00:50:25: We use the AAMC

00:50:28: no

00:50:29: We do not

00:50:31: no

00:50:32: no

00:50:32: Not at Emory

00:50:32: We do not

00:50:32: No

00:50:33: Also, nope

00:50:33: yes we do

00:50:34: We do!

00:50:35: yes, we do

00:50:35: No

00:50:37: Do not require it for our students to go to another school

00:50:37: no

00:50:37: No, but other institutions sometimes ask us

00:50:41: Yes if Host does not use AAMC Agreement.

00:50:41: Depends on institutions requirement

00:50:55: No, but we're asked by other institutions

00:51:11: We use VLSO. All affiliation agreements at our school have to go through legal, so we only use them if the host location requires it.

00:53:12: as a medical school, we actually don't administer our own visiting student program for our affiliate hospitals, they all implement their own visiting student program. Are we still responsible for the visiting student program for our affiliates under LCME? For example, should we house any visiting student records for our affiliate hospitals such as the final grade? They would do verifications when needed, not our office (for visiting student records).

00:56:03: similar experience, we have a clause in our AAMC implementation letter to address this

00:56:43: Mental healthcare has come up recently with us

00:58:20: We prefer to use our own but will complete a home institutions if required

00:58:20: we ask for ours, but accept others if necessary

00:58:24: we use whatever the student provides

00:58:25: either eval is fine with us

00:58:30: We will use the school's form, but we prefer our own

00:58:30: We use our own form but can utilize the other schools as long as we have a valid final grade meeting our requirements

00:58:34: we accept another institution's form if they won't use our because we need an eval

00:58:35: Either is fine for us too

00:58:35: Our issue is with those institutions that will only grade P/F

00:58:36: Either eval is OK

00:58:37: we will use their but have ours completed for back up

00:58:38: we prefer our evaluation form, but we will accept the host school's form

00:58:40: We ask for ours to be completed but will accept their if necessary.

00:58:41: We will accept others, even though ours is preferred.

00:58:55: We use what the student provides and ours only if none was provided

01:01:23: Before covid we did

01:01:24: yes, but only with our exchange partners

01:01:31: Same, Matthew

01:01:38: yes only with affiliates

01:01:40: yes, but only with our exchange partners

01:01:53: We need N/A option for us who are not Host. or just don't answer?

01:01:58: not as a whole, only with exchange programs

01:02:08: No, we only accept from LCME accredited school.

01:04:07: preparing for site visit

01:04:30: ^same

01:04:55: Not getting them back fast enough/needing to send reminders

01:05:23: some schools seem to want us (as home registrars) to collate a bunch of evals and determine the final grade, which makes no sense to me.

01:05:48: Yes, we use paper.

01:05:59: Fillable pdf for us

01:06:46: Getting them back timely is important. Many received after 6-week deadline

01:07:07: We track our students via a secondary formstack query report where we have them list the contact person at the away institution and time frame, so not only students, but departments and our office follow up with the contact person to complete our electronic fillable PDF final eval.

01:07:27: I am curious of people's onboarding process

01:08:12: Who at the home school reviews the evals and assigns the grade?

01:08:33: We use OASIS and provide other schools with login and password information and request them to enter and submit the evaluation through there; however, the students don't always provide us with the correct persons name and contact information so emails from OASIS are going out to the wrong person and no one contacts me to let me know that.

01:09:31: Never

01:09:33: we do not

01:09:34: No, we won't accept from student

01:09:35: we do

01:09:38: No!

01:09:39: yes

01:09:41: An email forwarded from the program

01:09:43: No, we do not accept from the student.

01:13:34: For us, the departments enter their own grades from away rotations

01:13:35: We would farm it out to respective department when we receive vague evals with no grading

01:13:48: depts enter the grades here

01:13:58: Our Associate Dean for Clinical Years 3 & 4 assigns all grades for away electives after she receives the evaluations.

01:14:11: Our data and analytics team looks over the assessments and provides the grade of P/F

01:14:30: Preceptors enter grades

01:14:37: we have separate away elective courses that we enroll our students and the course directors for those courses assign the grade

01:14:56: Hope - that's kind of where I would like to go with it.

01:15:33: Bring back custom fields! :)

01:15:37: Our departments manage the onboarding process

01:15:52: Our departments also manage that

01:16:08: onboarding is the responsibility of the department

01:16:10: custom fields! ♥

01:16:45: Each respective department will address onboarding for our visiting students as they were the ones who reviewed and confirmed accommodation/dates of visiting students.

01:18:25: no, just want them back!

01:18:36: Me too, Julie!

01:18:59: It's central in the Registrar's office and our affiliate site conduct theirs

01:19:46: yes our policy states ALL visiting students must be accepted through VSLO

01:22:42: I have not had that happen, but once a student didn't physically show up and I contacted their home school contact

01:22:59: What do you do when an accepted student doesn't show up or notify you of dropping the elective

01:23:38: If a visiting student passes your course but has negative feedback how do you share that with the home school

01:25:36: Please feel free to put your responses in the chat.

01:25:47: never been through accreditation, so would like a walk through about what to expect

01:26:10: same as above response

01:27:23: Is there a listing of LCME accredited med school accepting visiting medical students who are NOT using VSLO?

01:27:59: In Philadelphia, I know the UPENN does not use VSLO

01:28:02: It would be nice to have a directory instead of me building a very slow list per chance encounter

01:28:08: neither does Stanford

01:28:15: My biggest concern is, in my position as Academic Records Coordinator is timely grade submission by our faculty. OASIS is set-up to send emails weekly; however, I still find myself begging faculty for grades up to and after the 6-week deadline.

01:28:30: Stanford still lists our info on VSLO, even though we do not use the platform for applications

01:28:58: We did the 4-week deadline as well but it still doesn't work.

01:29:53: Nice to see everyone! I have to run off to another meeting.

01:29:54: Yes, that's what I do too.

01:30:20: Thank you all! Have a great afternoon!

01:30:37: 🙌

01:30:39: Thank you everyone! See you in Nashville!

01:30:40: Thank you! This was so helpful!

01:30:49: Thank you to everyone!

01:30:50: Thanks! Great discussion everyone!
