

Supplemental Table I: Average Age of Full-time Faculty and Chairs by Race/Ethnicity, Rank, and Department Type, 2022

The table below displays the average age of full-time faculty and department chairs at all U.S. medical schools as of December 31, 2022 by race/ethnicity, rank, and department type. The "Chair" breakout is not mutually exclusive from the faculty rank breakouts—each chair is also counted in the breakout associated with their faculty rank. As an example, a chair who holds a full professor appointment will be counted once in the "Chair" breakout and once in the "Professor" breakout. The high-level race/ethnicity categories at the AAMC are American Indian or Alaska Native; Asian; Black or African American; Hispanic, Latino, or of Spanish origin; Native Hawaiian or Other Pacific Islander; White; and Other. An individual may fall into one or more of these race/ethnicity categories. For the purposes of this particular display, White Alone refers to a faculty member who falls into the White race/ethnicity category but not into any other race/ethnicity category, and All Other Races/Ethnicities refers to a faculty member who falls into any other race/ethnicity category or into any combination of race ethnicity categories (including combinations with White).
