

MEMORANDUM

To: [External IRB] or institutional designee

From: University Hospitals Human Research Protection Program

Date: [Month] [Day], [Year]

Re: UH investigator research conflicts of interest management plan requirements

This memorandum has been created by the UH Human Research Protection Program (HRPP) to notify you of identified conflicts of interest associated with investigators on studies under your purview as the IRB of record. UH requires that significant financial interests of over \$5,000 that create or may appear to create conflicts of interest in research must be managed, reduced, or eliminated. The conflict management delineated in this memorandum has been reviewed and approved by the UH IRB and remains in effect for the life of the study involved unless the investigator submits a request to the UH HRPP to perform a re-review of the management requirements at which point, we will notify you of any changes.
