With New Machines.
Going to be a Big Deal

“Talking to the computer.”
A New Challenge

Has trusted information become obsolete?
Moore’s Law

Twain’s rule.
Clinician of the Future

“Work revolves around the computer.”
A New Stethoscope
II.
The Technology

“I generate responses to text-based queries.”
Research vs. Writing

“Because who else is going to write if not yourself?”
Prompt Engineers

“Halfway between a philologist and an engineer.”
The Peril

Misinformation and hallucinations.
B*llsh*tting

“Not breaking down or glitching out.”
Submission Guidelines

“Only humans take responsibility for what they publish.”
“What about Copyright?”

Provenance matters.
Sam Altman – “You’ll get paid for that.”
EU AI Act

“Safe, transparent, traceable, non-discriminatory, and environmentally friendly.”
IV.
A New Challenge?

Publishing and the public have never been safe.
AI Publishing Principles

Responsible application of generative AI.
Reason to Hope

*Found in published research.*
Warning: Contains ChatGPT

Misinformation inoculation.
Yes, a New Age

But a democratic, distributed one.
V.
Oppenheimer Moment

A global priority.
The Integrity Algorithm

Actions for guiding decision-making.
Going to be a Big Deal

“Talking to the computer.”
This is Not the End
