

Table C-6: Residency Applicants from U.S. D.O.-Granting Medical Schools by Specialty, Race/Ethnicity, 2015-2016

The table below displays the self-identified racial and ethnic characteristics of U.S. D.O.-granting medical school residency applicants in 2015-2016 to residency programs of the corresponding specialty. The academic year refers to residency training that begins in 2015-2016. The "Multiple Race/Ethnicity" category includes those who selected more than one race/ethnicity response. Please email us at datarequest@aamc.org if you need further assistance or have additional inquiries.

| ERAS Applicants from U.S. D.O.-Granting Medical Schools | American Indian or Alaska Native | Asian | Black or African American | Hispanic, Latino, or of Spanish Origin | Native Hawaiian or Other Pacific Islander | White | Other | Multiple Race/Ethnicity | Unknown Race/Ethnicity | Non-U.S. Citizen and Non-Permanent Resident |
|---|----------------------------------|-------|---------------------------|--|---|-------|-------|-------------------------|------------------------|---|

Note: In 2013-2014, the methodology for acquiring race/ethnicity information was updated. Rather than one question asking an applicant's Hispanic origin and a second question asking the applicant's race, the Hispanic origin and race response options are now listed together under a single question about how applicants self-identify. Applicants could select multiple response options. The "Non-U.S. Citizen and Non-Permanent Resident" category may include graduates with unknown citizenship.
