

**Table A-23: MCAT and GPA Grid for Applicants and Acceptees to U.S. Medical Schools, 2018-2019 through 2020-2021 (aggregated)**

The table below displays the acceptance rates at different MCAT and GPA levels for applicants and accepted applicants from 2018-2019 through 2020-2021. The frequencies are combined totals of three years. Please email [datarequest@aamc.org](mailto:datarequest@aamc.org) if you need further assistance or have additional inquiries.

Acceptance Rate for Applicants		Total MCAT Scores									All Applicants	
		Less than 486	486-489	490-493	494-497	498-501	502-505	506-509	510-513	514-517		Greater than 517
<b>Total GPA</b>												
<b>Greater than 3.79</b>	Acceptees	2	5	47	291	996	2,484	5,132	7,239	7,144	7,871	31,211
	Applicants	151	302	713	1,603	3,357	5,687	8,663	9,885	8,873	9,087	48,321

Notes: In April 2015, the AAMC launched a new version of the MCAT exam. Scores are reported in four sections: 1) Chemical and Physical Foundations of Biological Systems (CPBS), 2) Critical Analysis and Reasoning Skills (CARS), 3) Biological and Biochemical Foundations of Living Systems (BFLS), and 4) Psychological, Social, and Biological Foundations of Behavior (PSBB). Some medical schools accept scores from both the new and old exams. Accordingly, applicants vary in which scores they include with their applications. Only the most recent MCAT score is used for individuals who took the exam more than once.

In 2018, 52,777 individuals applied to U.S. medical schools. Among them, 51,815 applied with MCAT scores, and 52,518 provided UGPAs. Among those who applied with MCAT scores, almost all applicants (i.e., 98.6%) applied with scores from the new exam. In 2019, 53,370 individuals applied to U.S. medical schools. Among them, 52,414 applied with MCAT scores, and 53,106 provided UGPAs. Among those who applied with MCAT scores, almost all applicants (i.e., 99.8%) applied with scores from the new exam. In 2020, 53,030 individuals applied to U.S. medical schools. Among them, 52,022 applied with MCAT scores, and 52,744 provided UGPAs. Among those who applied with MCAT scores, almost all applicants (i.e., 98.6%) applied with scores from the new exam.

The counts for MCAT score ranges are calculated based on data from applicants who applied with MCAT scores. Specifically, 51,066 applicants and 20,642 matriculants in 2018, 52,326 applicants and 21,156 matriculants in 2019, and 51,996 applicants and 21,519 matriculants in 2020 were included in the calculations. The counts for UGPA ranges are calculated based on data from applicants who applied with UGPAs. Specifically, 52,518 applicants and 21,441 matriculants in 2018, 53,105 applicants and 21,689 matriculants in 2019, and 52,744 applicants and 22,050 matriculants in 2020 were included in the calculations.

Dashed cells indicate the MCAT/UGPA range combinations with fewer than 10 applicants; blank cells indicate MCAT/UGPA range combinations with zero applicants.

Each academic year includes applicants and matriculants that applied to enter medical school in the fall of the given year. For example, academic year 2020-2021 represents the applicants and matriculants that applied to enter medical school during the 2020 application cycle.
