

**Table B-3: Total U.S. Medical School Enrollment
by Race/Ethnicity and Sex, 2013-2014 through 2016-2017**

The table below displays the racial and ethnic characteristics of enrolled students in U.S. medical schools from 2013-2014 through 2016-2017. Enrollment includes the number of students in medical school, including students on a leave of absence, on October 31 of each year shown. Enrollment does not include students with graduated, dismissed, withdrawn, deceased, never enrolled, completed fifth pathway, did not complete fifth pathway, or degree revoked statuses. The "Multiple Race/Ethnicity" category includes those who selected more than one race/ethnicity response. *During the 2016 application cycle, a technical malfunction in the collection of race/ethnicity data necessitated a request that applicants review and re-submit responses to the race/ethnicity question in their AMCAS applications. Applicants in previous years were not asked to review responses to this question.

Note: The "Non-U.S. Citizen and Non-Permanent Resident" category may include students with unknown citizenship. Students who declined to report sex are only reflected in the All section. Therefore, the totals for women and men may not sum to the Total.
