

U.S. House of Representatives  
Washington, DC 20515

June 24, 2025

The Honorable John Thune  
Majority Leader  
United States Senate  
Washington, DC 20510

The Honorable Mike Johnson  
Speaker  
United States House of Representatives  
Washington, DC 20515

Dear Majority Leader Thune and Speaker Johnson:

As Members of Congress who helped secure a Republican majority, we believe it is essential that the final reconciliation bill reflects the priorities of our constituents—most importantly, the critical need to protect Medicaid and the hospitals that serve our communities. Throughout the budget process, we have consistently affirmed our commitment to ensuring that reductions in federal spending do not come at the expense of our most vulnerable constituents. We write to reiterate that commitment to those we represent here in Washington.

We support the Medicaid reforms in H.R. 1, which strengthen the program's ability to serve children, pregnant women, the elderly, and individuals with disabilities. The proposal released by the Senate Finance Committee on June 16 includes provisions that go beyond H.R. 1. The House's approach reflects a more pragmatic and compassionate standard, and we urge that it be retained in the final bill.

The Senate proposal also undermines the balanced approach taken to craft the Medicaid provisions in H.R. 1—particularly regarding provider taxes and state directed payments. The Senate version treats expansion and non-expansion states unfairly, fails to preserve existing state programs, and imposes stricter limits that do not give hospitals sufficient time to adjust to new budgetary constraints or to identify alternative funding sources.

We are also concerned about rushed implementation timelines, penalties for expansion states, changes to the community engagement requirements for adults with dependents, and cuts to emergency Medicaid funding. These changes would place additional burdens on hospitals already stretched thin by legal and moral obligations to provide care.

Protecting Medicaid is essential for the vulnerable constituents we were elected to represent. Therefore, we cannot support a final bill that threatens access to coverage or jeopardizes the stability of our hospitals and providers.

We appreciate your ongoing leadership in advocating for our members' priorities as you engage in negotiations with the Senate. We look forward to discussing these issues further and working together toward a solution that reflects our conference's goals.

Sincerely,

David G. Valadao
