

Managing and Inviting Users in the PDWS

Users with a Coordinator or Super User role can invite new users (for equal access or lower) to access the PDWS using the User Management Tool (UMT) in the Setup tab.

When users are invited:

- The system sends an email to the new user and tracks the status of the invitation.
- The invited user receives an email invitation with a link to the PDWS and instructions to:
 - Register for an AAMC account or log in with an existing AAMC account.
 - Verify their email account (only if a new AAMC account was created).
- After the user logs into the PDWS and accepts the Terms and Conditions, the user will be able to access the system.

Follow the steps below to send the invitation.

1. Navigate to the [ERAS® Program Director's WorkStation \(PDWS\)](#) and enter your AAMC username and password.

[NEED HELP?](#)

2. From the Dashboard, click the **Setup** tab.

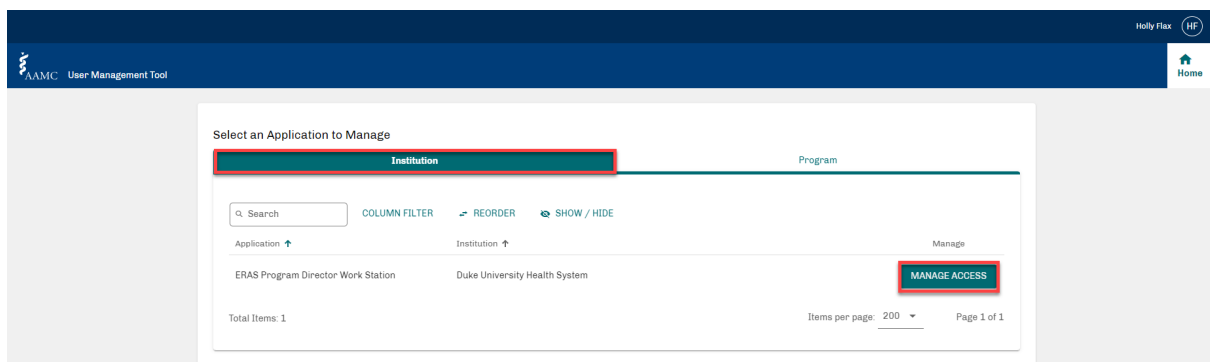

3. Click **Manage Users** to be redirected to the User Management Tool (UMT).

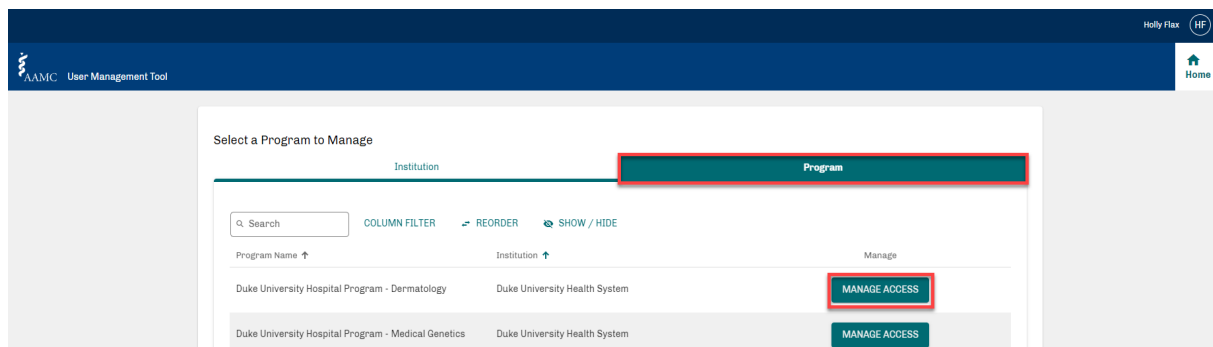

The view and available options in the **Setup** tab are dependent on your assigned role. You must have a Program Coordinator Role, Program Super User Role, or Institutional Super User Role to manage or invite users.

4. Select the appropriate tab to view your institution(s) or program(s) that you have access to.

To manage access at the institutional level and grant an institution specific role, click **Manage Access** for the institution you would like to configure under the **Institution** tab.

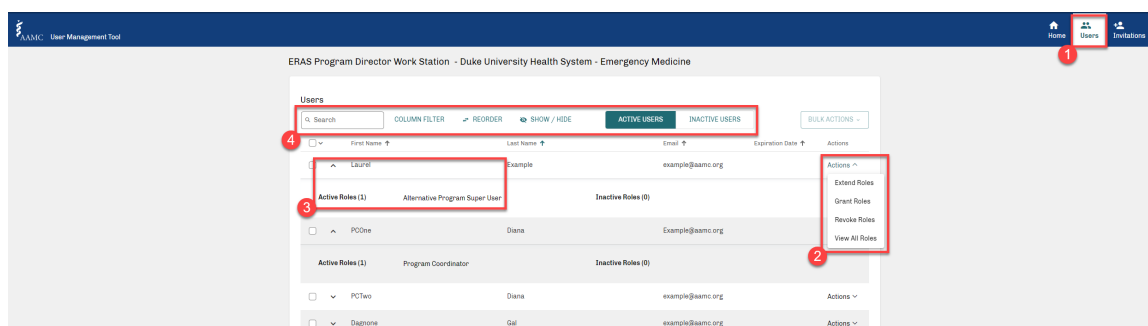

To manage access at the program level and grant program specific roles, click **Manage Access** for the program you would like to configure under the **Program** tab.

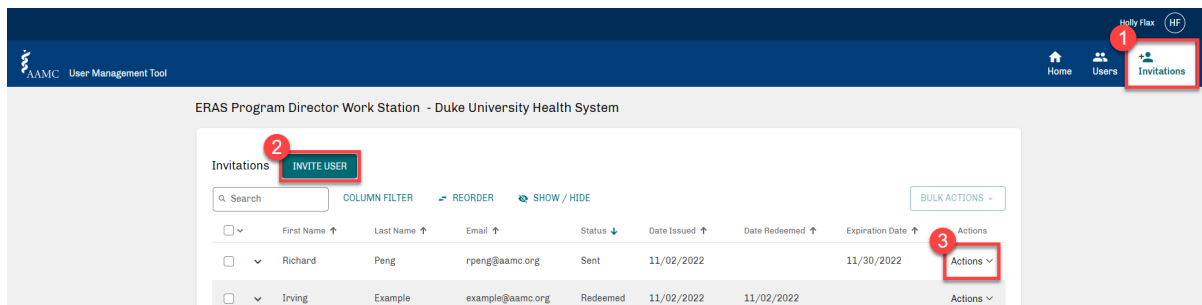

Your view may vary depending on the institution(s) or program(s) you have access to.

5. Configure current users' access in the Users tab using the available Actions drop-down menu items.

Use the tools at the top of the page to quickly identify users you need to configure and expand user details to view Active roles.

- Click the **Invitations** tab to manage existing invitations or to send new invitations to new users. Click the **Actions** drop-down menu to manage an existing invitation or click **Invite User** to invite a new user to access the PDWS.
