

Partnering for Progress: The AAMC and Global Academic Health

ABOUT THE AAMC

The AAMC is a nonprofit association dedicated to improving the health of people everywhere through medical education, clinical care, biomedical research, and community collaborations. Its members are:

- 160 U.S. medical schools accredited by the Liaison Committee on Medical Education and 13 Canadian medical schools accredited by the Committee on Accreditation of Canadian Medical Schools
- Nearly 500 academic health systems and teaching hospitals in the United States
- More than 70 academic societies

Through the Alliance of Academic Health Centers International (AAHCI), AAMC membership reaches more than 60 international academic health centers throughout five regional offices across the globe.

ABOUT AAHCI

AAHCI is a global network of academic health centers and systems committed to advancing health, education, and research through collaboration. Its mission is to lead members as they transform, adapt, and thrive in the changing health care landscape through thought leadership, meetings, innovative programs, advocacy, and publications.

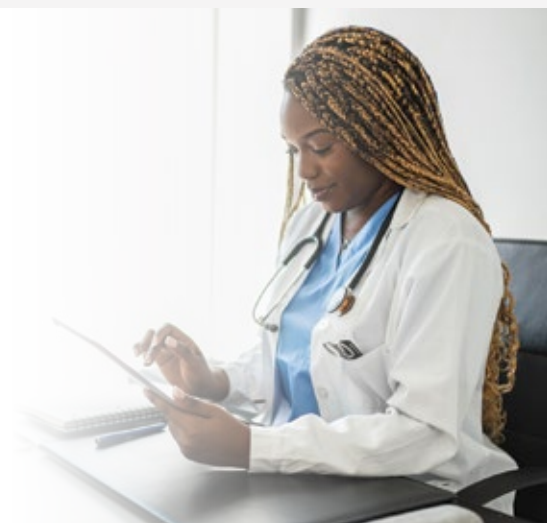

AAHCI Regional Offices provide additional networking opportunities and programmatic activities regionally:

- | | | |
|------------------|-----------------|------------------|
| • Eastern Africa | • Latin America | • North America |
| • Europe | • Middle East | • Southeast Asia |

STAY INFORMED

The following digital resources help leaders stay informed about news and critical issues facing the global academic health community:

- AAHCINews shares international programs and content, focusing on health care, research, education, and international collaboration.
- AAMCNews highlights news, features, current trends, and ongoing conversations about topics important to medical schools and academic health systems.
- Follow the AAMC and AAHCI on LinkedIn for top-level news, insights, and discussions on important topics in academic medicine.

LEARNING AND LEADERSHIP

LEARNING AND NETWORKING

AAMC meetings open to AAHCI institutions offer opportunities to network and collaborate with peers in-person and virtually.

Virtual Leadership Development

AAHCI representatives have access to virtual leadership development programs designed to support current and emerging leaders in academic medicine, providing high-impact training on topics including strategic leadership, institutional advancement, competency-based medical education, and more.

Topic- and Position-Based Learning and Networking

Opportunities for topic- and role-based learning and networking through webinars, in-person meetings, and global working groups such as:

- International Advisory Committee for Artificial Intelligence
- Global Consortium on Climate and Health Education
- The Fundamental Role of Arts and Humanities in Medical Education (FRAHME)

Virtual Communities

The AAMC's Virtual Communities provide a community-based platform that helps academic medicine professionals engage with their peers through networking, participating in discussions, and sharing resources. There are several topic-based forums open to all interested participants and an AAHCI Community for AAHCI members to share and explore opportunities for collaboration.

SUBJECT MATTER EXPERTISE

AAMC experts understand the complexities and unique missions of academic medicine. Our analysts, researchers, and strategists advance understanding and development in medical education, science and science policy, health care delivery and quality, academic and faculty affairs, student affairs, institutional culture, and more. AAHCI-member institutions may request specific expertise from the AAMC or seek expert guidance on solutions to their specific challenges.

INSIGHT AND GUIDANCE

RESOURCES AND TOOLS

Resources for Health Professions Education

The AAMC provides a wide range of medical education resources that support curriculum development, assessment, and innovation across the continuum of medical training. Through AAHCI membership, international institutions can access best practices to enhance teaching, learning, and educational leadership in alignment with global standards.

MedBiquitous® Consortium

AAHCI-member institutions receive complimentary access to this global community focused on developing and promoting data standards that advance health professions education and credentialing.

Career Planning

AAMC CareerConnect is an online career platform that helps institutions recruit for faculty, leadership, and research positions across academic medicine. Institutions can post opportunities and access a broad network of qualified professionals, while individuals can explore career paths and leadership roles at academic health centers.

Careers in Medicine is a comprehensive career-planning program for medical students that pairs well with a school's own career advising resources.

JOURNALS

Academic Medicine

Academic Medicine is the AAMC's peer-reviewed, subscription-based journal. It serves as an international forum for the exchange of ideas, information, and strategies to address the major challenges facing the academic medicine community as it strives to carry out its missions in the public interest. The journal's areas of focus include research, education, clinical care, community collaboration, and leadership.

MedEdPORTAL

MedEdPORTAL is a MEDLINE-indexed, open-access journal of teaching and learning resources in the health professions published by the AAMC. MedEdPORTAL publications are stand-alone, complete teaching or learning modules that have been implemented and evaluated with physician trainees or practitioners and reviewed by editorial staff and external peer reviewers. Resources are free to submit, publish, download, and use.
