

Welcome to the 2026 Post-MCAT Questionnaire (PMQ)

Please Read Carefully

The Post-MCAT Questionnaire (PMQ) is administered by the Association of American Medical Colleges (AAMC) to MCAT® exam registrants. Your responses help the AAMC, its member medical schools, and affiliated organizations better understand the needs and interests of those considering medicine and other health and science careers. The survey should take between 10 and 20 minutes to complete.

Participation in the PMQ is Voluntary

Participation in the PMQ is voluntary. You have the right not to answer any question or set of questions. Deciding not to complete the PMQ or refraining from answering specific questions will not result in any adverse consequences to you or your application to any program using MCAT scores.

Confidentiality Statement

The data collected in this survey are classified as confidential. Confidential data are data that may not be released with individual identification, except with permission, or as necessary to comply with properly made legal requests. Your responses will not be forwarded to medical school (or other) admissions committees and will not be compared with information you may provide in fee-waiver applications or financial aid requests. Your responses from this survey may be used for research by AAMC staff and other medical education researchers, and may be linked with other databases for research purposes without additional informed consent. The AAMC has taken extensive measures to ensure the security of the data and the confidentiality of the responses. Your responses will be securely stored by the AAMC with appropriate access controls to limit exposure of your data to those with a need to know.

Benefits and Risks of Participation

Benefits of Participation: By participating, you will be contributing to medical education research and the improvement of medical education programs.

Risks of Participation: This data collection is considered minimal risk. If individually identified data were made public, it could prove embarrassing.

This data collection has been reviewed according to AAMC policies and procedures and its Institutional Review Board.

Contact Information

If you have any questions about your rights as a participant, contact the AAMC Office of Human Subjects Research Protection by email (humansubjects@aamc.org). If you have any technical questions about the PMQ, contact AAMC Student Surveys staff by email (pmq@aamc.org).

If you understand the above and agree to participate, select "Yes" below:

- Yes, I understand the above and agree to participate in the PMQ
