

The table below displays the number of full-time faculty at all U.S. medical schools as of December 31, 2020 by gender, race/ethnicity, rank, and department classification. By way of background, the Faculty Roster utilizes the official name given to each department by each medical school. The AAMC department classification is a way to group disparately named (but similar) departments across medical schools. As an example, a medical school could have separate departments of Neurosurgery and Cardiothoracic Surgery. These departments would appear in the Faculty Roster under their official names, but both would be reported in the Surgery department classification. To allow for unduplicated counts of faculty, the "Multiple Race/Ethnicity – Hispanic" break-out includes all faculty who are reported as Hispanic and at least one other race/ethnicity. but who are not reported as Hispanic.

The table below displays the number of full-time faculty at all U.S. medical schools as of December 31, 2020 by gender, race/ethnicity, rank, and department classification. By way of background, the Faculty Roster utilizes the official name given to each department by each medical school. The AAMC department classification is a way to group disparately named (but similar) departments across medical schools. As an example, a medical school could have separate departments of Neurosurgery and Cardiothoracic Surgery. These departments would appear in the Faculty Roster under their official names, but both would be reported in the Surgery department classification. To allow for unduplicated counts of faculty, the "Multiple Race/Ethnicity – Hispanic" break-out includes all faculty who are reported as Hispanic and at least one other race/ethnicity. but who are not reported as Hispanic.

The table below displays the number of full-time faculty at all U.S. medical schools as of December 31, 2020 by gender, race/ethnicity, rank, and department classification. By way of background, the Faculty Roster utilizes the official name given to each department by each medical school. The AAMC department classification is a way to group disparately named (but similar) departments across medical schools. As an example, a medical school could have separate departments of Neurosurgery and Cardiothoracic Surgery. These departments would appear in the Faculty Roster under their official names, but both would be reported in the Surgery department classification. To allow for unduplicated counts of faculty, the "Multiple Race/Ethnicity – Hispanic" break-out includes all faculty who are reported as Hispanic and at least one other race/ethnicity. but who are not reported as Hispanic.

The table below displays the number of full-time faculty at all U.S. medical schools as of December 31, 2020 by gender, race/ethnicity, rank, and department classification. By way of background, the Faculty Roster utilizes the official name given to each department by each medical school. The AAMC department classification is a way to group disparately named (but similar) departments across medical schools. As an example, a medical school could have separate departments of Neurosurgery and Cardiothoracic Surgery. These departments would appear in the Faculty Roster under their official names, but both would be reported in the Surgery department classification. To allow for unduplicated counts of faculty, the "Multiple Race/Ethnicity – Hispanic" break-out includes all faculty who are reported as Hispanic and at least one other race/ethnicity, but who are not reported as Hispanic.

| Department/Rank                         | American Indian or<br>Alaska Native |       | e Asian |       | Black or<br>African American |       | Hispanic, Latino,<br>or of Spanish Origin |       | Native Hawaiian or<br>Other Pacific Islander |       |     | /hite |     | ther  | Multiple<br>Race/Ethnicity -<br>Hispanic |       | Multiple<br>Race/Ethnicity -<br>Non-Hispanic |       | Unknown |       |       |
