What is Copyright?

Copyright is a form of intellectual property law governing ownership of works created by individuals or groups. **Content authors do not need to register** their work with the U.S. Copyright Office or include a copyright notice **in order for it to be protected.**

Citation Styles (AMA Manual of Style)

- **Photos or other graphic material.** Rosenthal J. Raising of the flag on Iwo Jima. Associated Press. February 23, 1945.

Best Practices

- **Cite quoted or summarized content** using AMA citation format on slides where quote or summary appears
- **Link to source materials** (website, video, etc.)
- **Use press kits** produced by organizations for images and other materials
- **Use copyright-free materials**
  - Creative Commons provides access to search for content in the public domain as well as other options for use. Visit [http://search.creativecommons.org](http://search.creativecommons.org).
  - Content created by the federal government or where the copyright has expired (public domain)
  - Purchased stock images

Resources

- For determining copyright of published works, see Copyright Term and the Public Domain in the United States. Cornell Copyright Information Center.
