The Coalition for Physician Accountability – Report and Recommendations

Alison J. Whelan, MD
Chief Medical Education Officer
Association of American Medical Colleges
Medical Students in the Class of 2021: Moving Across Institutions for Post Graduate Training

Guiding Principles:

- Safety of patients, learners and our community paramount;
- Medical students and residents need to meet graduation and accreditation requirements;
- Residency selection process should remain as equitable as possible; and
- Concerted effort to reduce anxiety and promote well-being for all in an already stressed system.
Away Rotation Recommendation

Recommendation 1 — Away Rotations: The WG recommends that for the 2020-2021 academic year, away rotations be discouraged, except under the following circumstances:

• Learners who have a specialty interest and do not have access to a clinical experience residency program in that specialty in their school’s system.
• Learners for whom an away rotation is required for graduation or accreditation requirements.

Individuals meeting these exceptions should limit the number of away rotations as much as possible. Students should consider geographically proximate programs, when appropriate, to meet learning needs.
Key Roles For Medical Schools

Home School (Medical School)

- Develop institutional-specific policies and implementation and communication plan
- Inform students ASAP
- Review Specialty Specific Recommendations
- When releasing a student’s application in VSAS, be prepared to respond quickly to documentation request of the Hosts that applicant meets one or both exceptions for Away Rotations.
- Advise students who need to do away rotations to find close-by opportunities.
Key Roles For Programs

Host Institutions

- Determine if will be able to host open electives in VSAS
- Clearly post hosting policies/changes in VSAS and on institutional website
- Request documentation from Home to validate that applicant meets one or both exceptions for Away Rotations.
- Add virtual electives to VSAS so that students can find them and submit applications.
ERAS Services

Amy Mathis
Senior Director, ERAS
Association of American Medical Colleges
VSLO Services

Jenny Samaan, PhD
Sr. Director, Visiting Student Learning Opportunities™ (VSLO®)

Initial Feedback to VSLO

- “Great opportunity for students to learn more about their options here at their home institution.”

- “Based on these guidelines, we’ll be telling our students they cannot go on away rotations this year.”

- “We’ll be shortening our 4-week electives down to 3 weeks so we can host more visiting students.”

- “Our specialty has agreed to replace all in-person rotations with a standard virtual one.”

|                                   | Allows applicants to display a breadth of competencies (e.g., teamwork, effort, work ethic) that may be difficult to assess from application materials* | Provides insights into applicants’ clinical capabilities, personality, and professionalism that may not be readily assessed from application materials* | • Provide more holistic elements in school reporting that programs can use to evaluate students  
  • Provide longitudinal online group experiences hosted by programs (e.g., journal clubs, case discussions, group projects)  
  • Relax number of LORs, allow nonspecialty LORs, and standardize LORs to provide critical appraisal in key dimensions |
| Enables applicants to secure feedback, LORs, and SLOEs from residency program faculty in a chosen specialty* | LORs and SLOEs from colleagues in the specialty are helpful in evaluating applicants | Standardize specialty-based local LORs to provide critical appraisal in key dimensions |                                                                                                                                                                                                                                         |
| Allows students to assess the specialty, program features, and culture of the learning environment in ways that inform personal and career fit with the program* | Allows the program director to assess a given candidate’s fit with the culture of the program* |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                         |
| Allows applicants to experience clinical environments different from their home institutions | Allows programs to fully demonstrate the capabilities of the local training environment* | • Offer virtual tours of clinical learning environments associated with the program, including distinguishing clinical services and outcomes metrics  
  • Provide longitudinal online group experiences hosted by programs, as above |                                                                                                                                                                                                                                         |
| Gives students access to specialties they are considering but are not available at home institutions | Allows program directors to assess applicants from lesser-known schools | Offer online specialty-based mentoring programs, programs, as above |                                                                                                                                                                                                                                         |
| Establishes connections in a desired geographic area | Allows program directors to preview potential applicants and gauge applicants’ interest in their program | Provide longitudinal online group experiences hosted by programs, as above |                                                                                                                                                                                                                                         |

*The top three benefits mentioned by constituents for each party.

Note: LOR = letter of recommendation; SLOE = Standard Letter of Evaluation.
